MONITOR YOUR POWER BI ENVIRONMENT

POWER BI
ADMINISTRATOR

OUR SOLUTION IS THE RIGHT FIT
FOR YOU IF YOU

ARE
RUNNING BUSINESS CRITICAL POWER BI REPORTS AND YOU WANT TO REGULARLY SAVE THEM AS BACKUPS IN THE CLOUD

WANT
TO ANALYZE THE USAGE OF YOUR POWER BI TENANT AND GET DEEP INSIGHT ON HOW POWER BI IS USED WITHIN YOUR COMPANY

POWER BI ADMINISTRATOR

MANAGEMENT AND MAINTENANCE MADE EASY

BSGROUP
DATA ANALYTICS

MONITORING

By means of the Power BI Dashboard you get a deep insight into all activities of your Power BI tenant. From the most visited reports to the status of updates and unused workspaces.

RESTORE

The restore functions of a backup allow you to restore not only reports but also the configurations such as the loading / and user settings.

BACKUP

Power BI Administrator allows you to create backups of your entire Power BI tenant, so you can version your data or keep it for later recovery.

LEARN MORE

MONITOR YOUR POWER BI ENVIRONMENT

WORKSPACES & USERS

Learn which users haven't been using Power BI for a long amount of time and SAVE licensing costs!

Get an overview how security is handled in your workspaces and make sure only the right users have ACCESS to the data

REPORTS & DATASETS

See which Reports are the most viewed by which users and get an overview which Datasets have failed to refresh

Clean-up your environment by eliminating unused artifacts and see the impact

ARCHITECTURE AT A GLANCE

Using Power BI REST APIs as sources and leveraging Azure services like Azure Functions and Azure Blob storage allows the solution to be implemented within your IT-environment.
