

# Cyber DFIR

Call in our Digital Forensics and Incident Response team when it matters most.

Leverage the technical expertise, analytical skills and investigative capabilities of our **Cyber DFIR** specialists to help you respond to – and recover from – security incidents and cyberattacks.

**Cyber DFIR** offers a combination of digital forensics, incident response, and proactive and reactive security assistance delivered as a retainer-based service.

**CYBER DFIR ESSENTIAL** | Enhance your overall security strategy and receive technical support from our Cyber DFIR experts during incidents and cyberattacks. The basic package includes a documented Incident Response Plan and Forensic Readiness Plan.

**CYBER DFIR STANDARD** | Fine-tune the capabilities of your responders with tabletop exercises and receive support and guidance from our Cyber DFIR experts during incidents and attacks. The core package includes detailed Incident Response and Forensic Readiness Plans.

**CYBER DFIR PREMIUM** | Get personalised Incident Response and Forensic Readiness Plans, receive support and guidance from our Cyber DFIR experts during incidents and attacks, use breach simulations and tabletop exercises to improve staff capabilities, and benefit from continuous monitoring.

Be ready for anything, with a trusted technology partner on your side. **Let's talk about a Cyber DFIR package for your organisation today.**
