

Collect feedback withing Microsoft Teams

Create, send and engage with your employees in an easy way.

Get Started >

Templates

Use our ready-made templates or create your own to adapt to every situation. In 3 simple steps you can start collecting insights!

With Microsoft Teams

Users will receive a chat bot notification and they can answer without the need to set up an extra account.

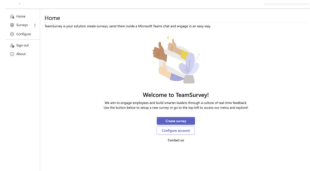

Simple and effective

Set up once and let us do the heavy lifting to get the results. Our recurrent system and analytics will allow you to extract powerful insights.

INTEGRATED SEAMLESS WITH TEAMS

Easy to use

Our simple layout allows for a good integration within Microsoft Teams tabs.

ANALYTICAL INSIGHTS

Powerful insights

Our integrated analytics will allow you to extract quick and powerful insights. You can also export our data to CSV to analyze outside our application.

CUSTOMIZABLE EXPERIENCE

Adapt to your organisation needs

Our simple form experience allows you to create a new survey in 3 simple steps:

- First, select the users or teams that will receive the survey;
- Customise the questions or use our ready-made templates;
- Set up the form details and recurrency for an ongoing seamless experience.
