INTRODUCING

BULLETPROOF 365C COMPLIANCE

MANAGE COMPLIANCE WITH CONFIDENCE.

THE WORLD HAS CHANGED.

HAVE YOUR PROTOCOLS?

With the massive growth of data, increased regulation and oversight, and the complexity of a remote workforce, the challenges of managing information continue to grow.

Bulletproof 365 Compliance is specifically designed to help organizations find the balance between enabling users and maintaining control.

"A centralized data governance program saved the businesses surveyed an average of $3.01 million."

Security Award

BULLETPROOF

a GLI company

WHAT'S INCLUDED:

- Data loss prevention policies
- Information protection (sensitivity labels)
- Insider risk management
- Communication compliance
- Compliance manager

IT'S YOUR DUTY.
PROTECT YOUR DATA.

With the exponential volumes of sensitive data being collected, used, and stored by organizations, properly monitoring and managing how that information is accessed, and by whom, is often subject to legal compliance regulations. Companies may have compliance tools, but ensuring they are properly configured, monitored, and aligned with company policy and government-mandated compliance regulations can overload an already busy IT team.

Bulletproof 365 Compliance is a compliance-focussed managed information protection service, that wraps around your existing Microsoft 365 infrastructure. Enabling advanced Microsoft tools to optimize information protection, mitigate internal risks from improper data leaks, and ensure that your data never leaves your control.

THE BULLETPROOF 365 COMPLIANCE ADVANTAGE

- Rules written specifically around compliance vs. general cyber threats
- Turnkey integration, monitoring, and reporting
- Maximizes the value of your existing Microsoft license
- Trusted Microsoft platform + Bulletproof security pedigree
- Gain expertise and free up your IT people
- Proactive user education and training
- Manage & remediate compliance risk
