# BULLETPROOF 365E ENTERPRISE

INTELLIGENT MXDR SECURITY  
POWERED BY MICROSOFT 365  
AND AZURE SENTINEL

## UNMATCHED ENTERPRISE GRADE SECURITY

With mobile workforces, volumes of connected users and devices, hybrid combinations of on-premise and cloud infrastructure, and a myriad of tools that don't communicate with each other, IT teams face more demands than ever, often resulting in security gaps that leave you vulnerable.

With the combination of SIEM + XDR, Bulletproof 365 Enterprise is an end-to-end Managed Extended Detection and Response [MXDR] service for Microsoft-powered organizations that bridges the gaps in cybersecurity tools, skills and capacity, providing organizations with seamless enterprise grade security in one cost-effective package with no long-term commitments.
