

ENTRA ID P2 INTEGRATED CLOUD IDENTITY AND ACCESS MANAGEMENT

Implement advanced features of Entra ID P2
(previously Azure Active Directory Premium P2)

OPTIMIZE IDENTITY AND ACCESS MANAGEMENT WITH MICROSOFT ENTRA

Identity security is critical in our current landscape where cyber threats are prevalent. By ensuring that only authorized people have access to sensitive systems and data, organizations can mitigate the risk of unauthorized access, data theft, and other security breaches. Robust identity security measures can also help with regulatory compliance.

Implement best practices and gain a full understanding of Entra ID P2, previously known as Azure Active Directory Premium P2. **Learn how to leverage the advanced features that will enhance your identity security during a six-week implementation.**

**Microsoft
Entra ID**

Entra ID P1 fundamentals

Multi-Factor Authentication (MFA)

Reduce the risk of unauthorized access, even in the event of compromised passwords.

Entra ID Password Protection

Review, explain and create custom banned password lists.

Conditional Access Policies

Review and develop a comprehensive list of Conditional Access policies and implement "zero trust" security principles.

Get compliant with policies for unmanaged devices by integrating with Intune or Mobile Device Management (MDM) solutions.

About Bulletproof

Headquartered in Canada with locations around the globe, Bulletproof has decades of technology, security, and compliance expertise, protecting its clients' most valuable assets— their identities, networks, data, and devices.

Bulletproof's work in the security space has been recognized nationally and globally with [Microsoft's global Security Partner of the Year in 2021](#), and [four Microsoft Canada Impact Award wins](#).

Bulletproof is proud to be a long-standing Microsoft Solutions Partner with Security and Modern Work Designations, a member of the Microsoft Intelligent Security Association (MISA), and a Microsoft Threat Protection Advanced Specialization holder.

Entra ID P2 capabilities

1

Entra ID Identity Protection

Automatically block or require additional authentication. Explore Identity Protection Dashboards and analysis.

3

Entra ID Identity Governance

Streamline access request and approval processes, ensure proper oversight and governance of identity-related tasks, and test Access Reviews & Packages.

2

Privileged Identity Management (PIM)

Monitor, control, and audit privileged roles within your organization. Limit access to critical resources and reduce the risk of misuse.

4

Passwordless Authentication

Explore passwordless sign-in methods like Windows Hello, FIDO2 keys, and phone sign-in to eliminate the vulnerabilities associated with traditional passwords.
