

MICROSOFT SENTINEL ACCELERATOR

Accelerate Microsoft Sentinel deployment
for enhanced threat detection and
optimize coverage

HARNESS THE FULL POTENTIAL OF MICROSOFT SENTINEL

Take a proactive approach to security—understand where and how threats can happen. Microsoft Sentinel is designed to help your business enhance security via efficient threat detection. From threat hunting and visibility to attack detection and response, Microsoft Sentinel can give you a full view of what's happening—all in one solution.

Enhance your threat hunting by automating tasks through orchestration. Accelerate your deployment of Microsoft Sentinel and empower your team to make the most of this cutting-edge security tool.

Microsoft Sentinel

Benefits of participating in the Microsoft Sentinel Accelerator with Bulletproof

- Fast-track the setup and configuration of Microsoft Sentinel.
- Integrate advanced Data Connectors to seamlessly collect data from your existing Microsoft Data sources and evaluate potential third-party data sources.
- Configure UEBA capabilities for enhanced threat detection based on user and entity behavior.
- Understand and create sample Playbooks to automate incident response and streamline security operations.
- Understand the use and setup of Content Hub, providing pre-built security queries and dashboards tailored to your needs.
- Understand and test Microsoft Sentinel Workbooks and its dashboard/reporting capabilities; leveraging out of the box workbooks.
- Get cost optimization tips and best practices for Microsoft Sentinel.

Learn how to leverage the advanced features of Microsoft Sentinel during a four-week implementation.

Advanced features of Sentinel include

- Advanced Hunting
- Analytical rules
- Playbooks
- User and Entity Behavior Analytics (UEBA)
- Data Connectors
- Content Hub
- Pricing
- Workbooks

About Bulletproof

Headquartered in Canada with locations around the globe, Bulletproof has decades of technology, security, and compliance expertise, protecting its clients' most valuable assets— their identities, networks, data, and devices.

Bulletproof's work in the security space has been recognized nationally and globally with Microsoft's global Security Partner of the Year in 2021, and four Microsoft Canada Impact Award wins.

Bulletproof is proud to be a long-standing Microsoft Solutions Partner with Security and Modern Work Designations, a member of the Microsoft Intelligent Security Association (MISA), and a Microsoft Threat Protection Advanced Specialization holder.
