Microsoft 365 Copilot
Readiness Assessment

Looking to maximize the value with M365 Copilot?

This engagement highlights the immediate value of Microsoft 365 Copilot through tailored, impactful scenarios. By focusing on high-value use cases, your team will quickly realize Copilot's benefits, including improved productivity and enhanced collaboration.

Additionally, the engagement offers comprehensive support for a pilot phase, providing your team with the knowledge and tools needed to evaluate Copilot's potential before full adoption. Our experts deliver hands-on guidance and actionable insights to help you make informed decisions for successful integration.

Who Should Attend?

- Organization size with 300 – 1,000+
- Microsoft 365 users
- Rapidly evaluating Microsoft 365 Copilot

The Process

This fully remote, **eight-week engagement** provides a structured approach to prepare your organization for an AI transformation with Microsoft 365 Copilot.

We will guide you by bringing our best practice approach to your preparation and deployment.

This includes a stakeholder engagement, a baseline review of existing information management related policies and standards, and a technical examination of current setup, and a licensing review. This is all supported by active knowledge transfer to users and technical staff.
