Business Vision Consulting: AwA

With our expertise in Microsoft's data platform, we make it easier to analyze data and identify trends, so you can be more proactive in your decision-making – we make it easy to make decisions!

See what customers are saying:

"At Business Vision, we found a supplier who genuinely wanted to understand our business. They were responsive to our needs but also came up with suggestions for improvements. Both the project, the solution, the collaboration and management have worked super well"

– Johanna Olsson, Technical Project Manager, Aritco

WHAT WE OFFER

AwA – "Ashore with Azure" aims to step by step help customers begin their journey of change to a more modern, flexible and future-proofed data platform in the cloud.

AwA has five concrete "starter kits" that can be used to meet the customer's unique needs. These five offers can be made separately or in combination.

- Modern BI in the Cloud

- Future-safe Dataplatform in the Cloud

- Intelligent Integration platform

- Start working with IoT

- Use the possibilities with AI

In close cooperation with the customer's staff, and, our Azure architects participate in the transformation process to create the best solution according to the customer's wishes and conditions.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
