About us

Byte Computer is one of the top partners for organizations and businesses that need specialized and advanced solutions to cover their increased operational needs in the modern environment: system integration, software development, technology unification and networking.

Byte Computer is a Microsoft Gold Partner certified with 16 Microsoft Certifications and two **Advanced Specializations**. As a **FastTrack Ready Partner**, we have the technical expertise to facilitate the deployment of the FastTrack Benefit for the strategic transition to the Microsoft cloud productivity platform. By this we are helping businesses to automate their processes, enhance collaboration and optimize their investment **at no additional cost** for the period their subscriptions remain **active**.

What is the FastTrack Benefit

The Microsoft FastTrack program is a Customer Success service offered by certified partners, designed to help beneficiaries accelerate onboarding and adoption of the Microsoft 365 services, guaranteeing a successful roll-out. It reduces time and effort consuming processes by offering remote guidance by Microsoft's proven methodology. You will have available online resources and documentation, appropriate tools and deployment wizards, best-practice scenarios and even hands-on workshop towards a designed Microsoft 365 adoption roadmap. By choosing Byte Computer as your trusted FastTrack Partner, we will work together to organize the utilization of the Microsoft 365 products in your organization and provide end-to-end guidance.

Byte Computer has designed a single day briefing consultation for Microsoft 365 adoption to empower every worker in every organization in Greece. We provide our customers an introductory session on how **deployment of the FastTrack Benefit** supports driving healthy usage in the modern workplace service.
