

Cloud Security Assessment

2 Week Assessment

3 DAY
ENGAGEMENT

ACROSS
2 WEEKS

Do you understand your organisations vulnerabilities? Are you being subject to phishing attacks, is your data exposed? How much would a breach cost your organisation?

Take control of your security posture with Byte's Cloud Security Assessment.

The Byte Security Assessment will help you develop a robust, strategic security plan for your organisation. Based on Microsoft cybersecurity best practices, you'll not only gain visibility into immediate threats across email, identity, devices and data, and you'll gain valuable clarity and roadmap insights on how to improve and upgrade your security posture.

Do you know how secure your organisation is right now? Given the volume and complexity of identities, data, applications, devices, and infrastructure, it's essential to understand your current security posture and how to mitigate and protect against threats.

You'll not only gain visibility into immediate threats across email, devices identity, and data; you'll get valuable clarity and support on how to upgrade your security posture for the long term.

Why choose the Byte Cloud Security Assessment?

Identification of your current cloud risks

Next steps security roadmap
