TAKE FULL ADVANTAGE OF MICROSOFT 365

About ConvergeOne:

We invest in our customers through a series of strategic workshops to learn and uncover true business challenges within an organization. This methodology allows ConvergeOne to then tailor and roadmap a series of Microsoft solutions to meet your challenges today and deliver on business real objectives. We validate the solution by performing a “test-drive” of the proposed solutions to provide you with the confidence to move forward.

Maximize your investments

With the Microsoft 365 suite, there are over 150 different features to solve business challenges that cover technologies from Identity, Security, Email, Collaboration, Calling, Meetings and More

On average, organizations only use 12% of their feature licensing.

WHAT WE OFFER

Our certified experts will advise, build and implement a tailored-made plan to achieve your organization goals by maximizing your O365 investments.

Our Customer Support Center delivers world class support and IT administration with industry leading NPS of over 71.
