

Drive Business Results with AI & Microsoft Copilot

63% of organizations are not highly prepared with a strategy for Gen AI

5-10 hrs avg. time savings of Copilot users per month

+112% 3-year projected ROI of Copilot (up to 457%)

AI Art of the Possible Demo

- Pre-demo discovery
- 60-minute presentation
- 30-minute post-demo planning

Discover what's possible with AI during a compelling demonstration of practical organizational use cases for Copilot and AI that are immediately applicable.

Executive Briefing & Workshop

- 1.5-2.5-hour presentation on AI
- 3-4-hour visioning workshop for leaders

Inform leaders during an executive briefing and engage them in a collaborative workshop to envision specific applications of AI in the organization.

Customization & Support

- Copilot Studio and Azure AI expertise
- Custom dev/integrations
- Continuous support

Extend beyond Copilot's out-of-the-box capabilities by customizing a copilot built for your organization's unique requirements and leveraging other AI solutions.

Copilot Proof of Value

- Training sessions
- Ask the expert Q&A
- User ride-alongs
- Results/ROI report

Prove the ROI of Copilot by engaging a small user base in a rapid training and adoption program using out-of-the-box capabilities and measuring its success.

Copilot & AI Readiness Plan

- Readiness assessments (people, security, data, and platforms)
- Visioning/road mapping

Develop a strategic roadmap that considers your entire organization's readiness, presenting an actionable plan for org-wide Copilot/AI implementation.

Copilot Rollout & Adoption

- Copilot configuration
- User training
- Adoption monitoring
- IT support

Implement Copilot organization-wide to maximize ROI or maintain momentum within a select team after a successful Proof of Value initiative.
