Caf2Code

Dynamics 365 Finance and Operations: Leapwork Implementation

SUMMARY

Caf2Code's **4-Week Leapwork Implementation** is a fast-tracked, outcome-focused engagement designed to integrate Leapwork's no-code automation platform with your D365 Finance & Operations environment.

In just one month, we'll get you from setup to sustainable test automation—empowering your team to improve testing speed, accuracy, and confidence in your ERP.

AGENDA

- **Week 1 & 2 – Kickoff & Foundation / Build & Design**
- **Week 3 & 4 – Expand & Stabilize / Transition & Scale**

DELIVERABLES

- ✓ 10–15 automated test cases aligned to your business
- ✓ Leapwork environment fully configured and integrated
- ✓ Internal team trained to build and maintain flows
- ✓ Documentation for support, reuse, and governance
- ✓ Post-implementation roadmap and recommendations

WHY CAF2CODE?

- **No Unnecessary Documentation:** We respect your time and resources. Our approach focuses on creating only the essential documentation, designed to evolve with your company, ensuring we're always aligned with your dynamic needs.
- **Tailored Solutions, Not One-Size-Fits-All:** We pride ourselves on our commitment to understanding your unique requirements. By engaging with you and your stakeholders, we craft strategies that are bespoke to your processes and needs.
- **Clear and Collaborative Approach:** Ambiguity is not in our dictionary. We emphasize cross-team collaboration, both internally and with your organization. This approach ensures projects are completed faster and resonate more closely with your objectives.
- **Transparent Communication:** At Caf2Code, we believe in the power of open and honest dialogue. Our commitment to candor ensures that you're always in the loop, fostering a partnership built on trust and mutual respect.
