

**Offer Name = Legacy Application Modernization Briefing  
Calian Digital Solutions Ltd. (CDS)**

**Summary/The purpose of this engagement =**

Modernizing applications can help organizations stay competitive and operate efficiently in today's digital era. We are an industry leader, enabling organizations to securely offer services online.

**Description=**

With every industry facing rapidly evolving demands and stringent regulations, it has become crucial for organizations to modernize their legacy software systems to maintain competitiveness and ensure superior customer service.

***Risks of Outdated Software***

- **Increased Security Risks:** Vulnerability to cyberattacks.
- **Lack of Scalability:** Inflexible system architecture prevents growth.
- **Technical Debt:** Increasing costs due to legacy systems.
- **Talent Shortage:** Difficulty finding skilled professionals for legacy technologies.
- **Data Silos:** Reduced collaboration and data sharing.

***Key Benefits of Legacy App Modernization***

- **Reduce Costs:** Minimize infrastructure and operational expenses.
- **Create New Revenue Streams:** Unlock new business opportunities with enhanced features.
- **Enhance Customer and Employee Experience:** Improve productivity and engagement with streamlined workflows.
- **Improve Security:** Protect against security breaches and data leaks.

Calian Digital Solutions (CDS) offers this unique modernization briefing specifically designed for discussing the various challenges and options/solutions for modernization of legacy systems in organizations.

This briefing aims to identify essential steps needed for legacy application modernization by the app modernization experts at Calian. Choosing Calian Digital Solutions for modernization comes with the benefit of our proven success and extensive experience in delivering complex IT solutions that not only reduce development costs and time to market but also provide comprehensive support from assessment to testing and evaluation. As a Microsoft Gold Certified Partner since 2002, CDS has received multiple awards, including the Microsoft IMPACT Awards for Data Platform of the Year and Application Innovation.

***Why Choose Calian Digital Solutions?***

- **Proven Success:** Efficiently delivers complex IT solutions with innovation and value.
- **Industry Leader:** Helps organizations navigate digital transformation challenges.
- **Comprehensive Support:** Support at every stage, from strategy to testing and evaluation.

Our approach to modernization includes defining objectives to identify specific business needs and user requirements, assessing readiness by evaluating application types, technical requirements, business risks and regulatory compliance, and developing a strategy that aligns with healthcare business needs to drive value and enhance communication.
