

Name of Offer: Integrate Copilot into your System (Implementation)

Company Name: Calian Digital Solutions Ltd. (CDS)

Duration: 4-Weeks

Purpose Summary:

Fly high with this brand-new implementation offer from Calian Digital Solutions that harnesses innovative AI technology to provide you with your very own Copilot.

Description:

This 4-weeks implementation offering is designed to seamlessly integrate Microsoft's Copilot Studio into your organization's existing systems. Throughout this period, our experts will work closely with your team to customize and deploy a uniquely customized Copilot Studio, ensuring it aligns with your specific workflows and business processes and meets your business requirements. By adopting a custom Copilot, your organization can achieve enhanced productivity, improved decision-making, and optimized operations through the power of AI.
