

# Your Microsoft Teams Compliance – Fully Covered

Compliance doesn't have to be complex. As a Microsoft-certified solution, CallCabinet delivers frictionless, enterprise-wide compliance recording for Microsoft Teams voice, video, and screen sharing. Whether your workforce is in-office, remote, or on the move, CallCabinet ensures you're covered – with no gaps.

Built on Azure, like Microsoft Teams, CallCabinet offers unmatched scalability, security, and global compliance for regulated industries, including finance, healthcare, legal, government, and more.

## Comprehensive Compliance Across All Communication Channels

CallCabinet ensures 100% compliant recording across Teams interactions – desktop, mobile, VoIP, and beyond. And, through Mobile Operator Connect, organizations can record business calls on mobile devices without installing the Microsoft Teams app – making mobile compliance effortless and invisible to end users.

## Migrate and Modernize Legacy and Live Data

CallCabinet's Azure-native platform enables fast deployment and secure migration from legacy systems. Gain a unified view of historical and real-time Teams data – transformed into actionable business intelligence through AI-powered conversation analytics and compliance tools.

## Compliance comes standard

- ◆ Unlimited recordings
- ◆ Unlimited storage
- ◆ 256-bit AES rotating encryption
- ◆ Local and geographic redundancy
- ◆ Unified location-based data sovereignty
- ◆ Custom retention policies
- ◆ Multi-factor authentication
- ◆ Granular, role-based access controls
- ◆ Call playback, flagging & notes
- ◆ Searchable tagging & grouping
- ◆ Agent and team segmentation
- ◆ Basic API support
- ◆ Multi-language support

## Compliance Without Compromise

### Granular Access, Total Control

Assign team-based or custom user roles to control who can access recordings, what they can do, and how they interact with the data – essential for organizations with layered compliance responsibilities.

### Redundant, Secure, Resilient

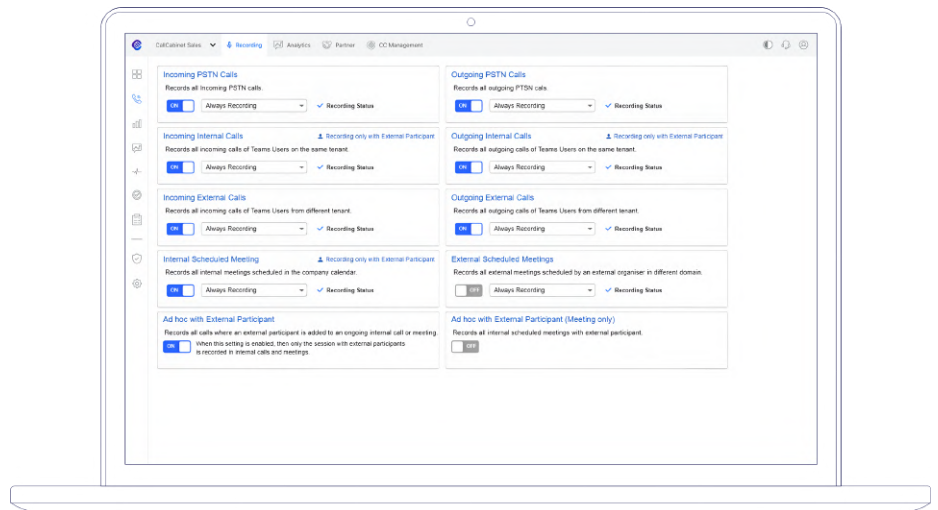

Dual capture options (N+1 or 2N) and storage in Microsoft Azure ensure every call is protected with enterprise-grade security and uptime. Your data is yours – fully encrypted and always accessible.

### Hybrid Work, Fully Compliant

Whether your employees are on-site, remote, or mobile, CallCabinet guarantees compliance across all environments. With Mobile Operator Connect, even mobile business calls are compliantly captured without relying on Teams app installation.

### Unrivalled Teams Video Recording

CallCabinet is the only Microsoft-certified solution that captures up to nine video streams, plus audio and screens – synced and stored for complete meeting reconstruction.

### Conversation Analytics That Deliver Value

Leverage AI-driven insights to evaluate sentiment, detect compliance breaches, and drive performance. From agent training to customer journey analysis, CallCabinet turns voice into measurable value.

### Seamless Teams Integration

CallCabinet's Microsoft Teams App Add-In lets users:

- Pause, resume, or cancel active recordings
- Tag and annotate calls
- Search and access recent calls
- View playback history

All managed with role-based permissions for compliant, in-app control.

## Own, Secure, and Share with Confidence

### Take Control of Your Compliance Journey

Your recordings are fully owned by your organization – stored securely in Azure and accessible through granular permissions and user policies.

### Stay Compliant When Sharing

With “Compliance Share,” securely send encrypted recordings via time-limited links while maintaining full control and auditability of shared data.

### Military-Grade Encryption

All data is secured using 256-bit AES rotating encryption, providing unmatched protection and meeting global regulatory requirements.

### Scale as You Grow

CallCabinet’s license-flexible model scales with your business – no per-user restrictions, no data caps. Add features only when needed.

Microsoft Teams has over

# 320 million

monthly active users  
collaborating for more than

**3.2 billion minutes**  
- over 53 million hours -  
**every single day.**

With hybrid work the  
norm, complete  
compliance is a must –  
not an option.

Uncomplicate Microsoft Teams compliance.
