Intranet Out-of-the-Box Solution

Cambay Consulting
Accelerating Digital Transformation

Microsoft Managed Partner

In today's fast-paced, dynamic, and remote working world, you cannot afford to have a legacy intranet platform that cannot meet modern collaboration requirements. Modern users look for a simple & interactive user interface. Developing such a solution from the ground up is expensive, takes a longer time to build, and often results in low adoption. Hence, organizations are looking for an Intranet-of-the-Box solution that is ready to deploy in few weeks.

Cambay's **Intranet Out-of-the-Box Solution** is an intelligent unified collaboration platform for corporate communication and document management. The solution delivers high-quality and tons of useful intranet features that can be customized for your organization to provide an outstanding user experience. The cloud-first, mobile-first solution offers a seamless mobile experience to keep your users engaged from any device.

Why Cambay

- Microsoft Managed Partner and Gold Competencies in Collaboration & Content and Cloud Productivity.

- Helping enterprises create digital experiences for employees that unite enterprises.

- Trusted digital workplace partner for several leading enterprises
