

Microsoft Teams Calling (MTC) Assessment

Unleash the power of MTC in just 2 days

Amid COVID-19, Videoconferencing and calls are here to stay, and it is no surprise that the IT department is evaluating different tools to make enterprise voice services simple yet cost-effective.

As the hub for teamwork in Microsoft 365, Microsoft Teams is the collaboration tool that enables teamwork and business process automation at all levels of your organization. **Microsoft Teams Calling (MTC)**, a cloud-based phone system, allows employees to make high quality calls from wherever they are while using their work number.

Microsoft Teams Calling (MTC) : 2-Day Assessment

Cambay's **Microsoft Teams Calling (MTC) two-day assessment** helps you *assess and evaluate* how Microsoft Teams can simplify your enterprise voice services with a reliable, high-quality integrated calling solution built on the Microsoft cloud.

Discuss and gather requirements of the current on-prem PBX and PSTN environment.

Show how you can call from a single number from anywhere, any device – Computer, mobile, or desk phone.

Discuss major configuration options, architecture, 3rd party add-ons, licensing scenarios, and hardware options.

Discuss impact to your network, streamlining setup, and how it provides cost savings and compelling value.

Demonstrate how MTC workloads can be configured/managed in the Microsoft Teams admin center in Microsoft 365.

MTC 2-Day Assessment Deliverables

- Evaluation of your future PBX needs.
- Demonstrate Microsoft Teams calling experience to showcase why Microsoft Teams is the right calling solution.
- Recommendations to deploy and adopt MTC as your modern collaboration and communication solution.
- Deployment scenarios, pricing options, and discounts.

WHY MICROSOFT TEAMS CALLING

- Work Smarter by bringing together calling, chat, and meetings in an all-in-one app.
- Leverage Cloud Voicemail and rich calling features such as call park, group, and conference calling.
- Use Auto Attendants and Call queues and learn how to manage call analytics and call quality dashboards.

Duration & Cost

\$2,500 for a MTC 2-day assessment
