The Data Security Engagement

Identify data security risks in your organizational data

Partner-led engagement highlights

Understand the risks of *Dark Organizational Data*

Learn about the risks organizational insiders may impose

Assess your environment against key data protection standards

Receive an analysis and report on findings and associated risks

Learn about tools and services that can help mitigate risks

Explore recommendations and next steps

80%+ of leaders cited leakage of sensitive data as their main concern around adopting Generative AI

In today's digital age, data is the lifeblood of any business, and its security is paramount. As the datasphere is projected to double by 2026, the sheer volume and complexity of data will only increase, making it a prime target for security incidents. With the rapid deployment of generative AI apps, data security risks are escalating, demanding robust protection and governance. Yet, an alarming 30% of decision-makers lack visibility into their sensitive data's location or nature, leaving their digital estate vulnerable. It's time to take control and safeguard your business's future. Don't wait for a costly data breach to realize the importance of data security. Secure your data now, and stay ahead in the game of digital defense.
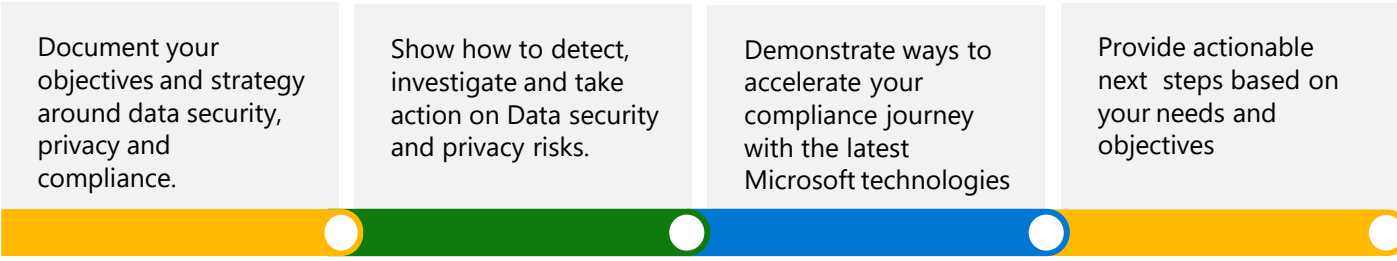

Intelligently investigate and take action on data security risks

Detecting, investigating, and acting on data security risks in your organization is critical to ensuring trust, creating a safe workplace and protecting company assets and employee and customer privacy.

The **Data Security Engagement** gives you the insights you need to understand data security, privacy and compliance risks in your organization.

As your business-critical data expands and your workforce shifts to remote work, having an integrated approach that can help quickly identify, triage, and act on data security risks is more important than ever.

By participating in this engagement, our experts will work with you to:

| Document your objectives and strategy around data security, privacy and compliance. | Show how to detect, investigate and take action on Data security and privacy risks. | Demonstrate ways to accelerate your compliance journey with the latest Microsoft technologies | Provide actionable next steps based on your needs and objectives |
