

# CS Microsoft Copilot 360° - Implementation

Utilize the new power of generative AI with Microsoft Copilot.

Campana & Schott accompanies enterprises and their information worker workforce holistically with the conception, introduction and implementation of Microsoft Copilot.

Engage Campana & Schott with professional, technical and methodological expertise to guide the utilization of the Microsoft Copilot for Microsoft 365, Power Platform, Windows, Security and Fabric.

## Envisioning, Strategy Development & Roadmap

Ignite on the Copilot possibilities and develop the appropriate strategy including business case and roadmap for the utilization of Copilot – considering individual requirements, use cases, economic efficiency, best practices, etc.

**Outcome:** Statement of Work and strategy on how to bring Microsoft Copilot into an efficient usage for your company.

## Microsoft Copilot Readiness & Implementation

Elaborate on organizational and technical requirements to best utilize the Copilot functionalities. After ensuring the readiness the implementation of Copilot can be conducted.

**Outcome:** Ready organization and technology to utilize Copilot.

## Adoption & Change Management measures for successful rollout:

The successful anchoring of Copilot in the company is achieved by high expertise in Adoption and Change Management, our profound technological know-how as well as the extensive experience from past projects.

**Outcome:** Get the maximum of your investment in Microsoft.

## Support & Operations to ensure sustainable evolution:

We take over the full operation of our customers' Microsoft 365 environment incl. Copilot - from service management to tools.

**Outcome:** Service and support contact for sustainable operations
