

We help you finding the right first steps towards a modern work architecture for your Frontline workers

ABOUT CS FRONTLINE MODERN WORK LAUNCHPAD

You want to unlock the productivity potential of your Frontline workforce? You are in an early stage and still looking for the right solution and approach? CS helps your organization to take the right first steps. Our holistic approach fully integrates your Frontline workers in your existing Modern Workplace instead of creating a siloed solution.

4 WEEKS – COMPACT APPROACH – IMMEDIATE RESULTS

Envisioning & Use Cases

Goal:
In a workshop we discuss what use cases are relevant and how the Microsoft platform capabilities covers them. As a result, you have a first idea how to integrate your Frontline workers in your Modern Workplace

Deliverables:

- Use case heatmap (quick wins vs. big ones)
- Use case and tool mapping
- Comparison with other Frontline solutions (e.g. staffbase)

Technical Assessment

Goal:
In a workshop we discuss the relevant IT questions: Device strategy, network & infrastructure, security, identity and compliance. As a result, you know the necessary steps on IT side.

Deliverables:

- Assessment results
- IT roadmap
- Handout with further recommendations and impulses

Roadmap

Goal:
We propose an implementation roadmap reflecting the business value creation and technical dependencies. As a result, the roadmap is validated both from business an IT perspective.

Deliverables:

- Implementation roadmap
- Recommendations and success factors
- Risks and dependencies
- Effort estimation

PoC (optional)

Goal:
We recommend to implement the first use case to create a tangible solution. As a result, you get your own working solution to showcase in your organization.

Deliverables:

- Deployed PoC solution
- Support to set up Tenant and Azure environment (if required)
