

# ACSC - ESSENTIAL EIGHT MATURITY ASSESSMENT

## KNOW YOUR CYBERSECURITY MATURITY AND HOW TO OPTIMISE IT

- + Are you ready to take your cyber security to the next level?
- + Do you want to know how well you are implementing the Essential Eight cyber security measures and where you can improve?

Canon Business Services ANZ offers the Essential 8 assessment as a comprehensive and objective evaluation of your organisation's cyber security posture based on the best practices recommended by the Australian Cyber Security Centre (ACSC).

The Essential Eight assessment will help you to:

- + Benchmark your cyber security maturity against the ACSC Essential Eight Maturity Model and industry standards.
- + Identify your strengths and weaknesses and prioritise the areas that need attention.
- + Receive a detailed report with actionable recommendations and guidance on how to achieve your desired level of cyber security maturity.
- + Use the results of the assessment to inform and support your Essential Eight Adoption Roadmap, which will help you plan and execute your cyber security improvement projects.
- + Demonstrate your commitment and progress to your stakeholders, customers, and regulators.

ACSC Essential Eight assessment is more than just a compliance check. It is a strategic investment that will:

- + Enhance your cyber security capabilities and resilience.
- + Reduce your exposure to cyber threats.
- + Increase your competitive edge.

STANDARD	<b>\$15,400</b> ex GST (70 hours x \$220)
ADVANCED	<b>\$26,400</b> ex GST (120 hours x \$220)

Choose your ACSC Essential Eight Assessment type.

### Standard assessment

- + Includes a systematic evaluation of your cyber security posture, based on evidence from interviews, surveys, documents, and scans.
- + You will get a report with your strengths, weaknesses, opportunities, and threats including recommendations and action plans to achieve your target maturity level.
- + You will get a recommendations document with the rationale, benefits, and priority of each recommendation.

### Advanced assessment

- + Includes a comprehensive analysis of your cyber security posture, based on evidence from interviews, surveys, documents, and scans.
- + You will get a report with your strengths, weaknesses, opportunities, and threats, including recommendations and action plans to achieve your target maturity level.
- + You will also get a remediation steps document with tasks, resources, timelines, and costs to implement the recommendations.
- + Our consultants will help you with the implementation and track your progress with metrics and indicators.

## OUR APPROACH

Using a proven methodology based on the ACSC Essential 8 Maturity Model and best practices, we have developed a custom assessment that will cover all aspects of your cyber security environment, including your policies, processes, procedures, people, and technologies, where we will:

1. Analyse your current cyber security practices and compare them with the eight mitigation strategies defined by the ACSC.
2. Measure your cyber security maturity level for each strategy and identify the gaps between your current and desired state.
3. Provide you with a comprehensive report that outlines your strengths, weaknesses, opportunities, and threats, as well as practical recommendations and action plans to achieve your target maturity level.
4. Support you throughout the implementation of the recommendations and monitor your progress over time, or we can produce a detailed remediation steps for you to implement.

By conducting an Essential Eight assessment, you will benefit from the expertise and guidance of our certified cyber security consultants, who will help you enhance your cyber security capabilities, reduce your risks, and help you comply with the ACSC standards.

## EIGHT MITIGATION STRATEGIES

Application Control

Patch Applications

Configure Microsoft Office Macros

User Application Hardening

Restrict Admin Privileges

Patch Operating Systems

Multi-factor Authentication

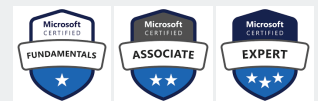

Daily Backups

## ABOUT CBS

**Canon Business Services ANZ (CBS)** is a technology solutions partner for ambitious organisations. We help clients overcome legacy constraints, close skills gaps, and accelerate modernisation with a practical, outcomes-driven approach that turns complex challenges into clear, achievable solutions.

As a Microsoft Solutions Partner with multiple designations and specialisations, we deliver proven expertise across cloud, security, automation, and managed services. Our teams draw on decades of hands-on experience designing, modernising, and operating end-to-end IT environments.

We also bring deep knowledge of key regulatory and security frameworks—including APRA CPS 234, ASD ISM, ISO 27001, NIST, PCI-DSS and SOC 2—ensuring every solution meets the highest standards of compliance and data protection.
