Canvass Puts the Power of AI in the Hands of Industrial Engineers

ABOUT CANVASS AI:

Canvass AI is a patent-pending no-code, AI SaaS platform built specifically for Industrial engineers to create impact with their data – without requiring data science expertise.

WHAT WE OFFER

Within one platform, Canvass AI provides all the capabilities industrial companies need to apply, explain, and scale AI across your operations. Using Microsoft Azure, the Canvass AI platform enables:

Quick Time to Value Process massive volumes of complex data and extract value from your data immediately and continuously.

Industrial Scale Efficiently and securely scale across operations - from a single process to hundreds of plants.

Data Source Agnostic Ingest data from any source, ensuring more comprehensive analysis and deeper operational insights.

Real Time Insights Transform industrial data into meaningful insights via live dashboards, providing the predictive insights to answer your most important questions.

Fast track your AI adoption and value creation with Canvass AI.

See what people are saying:

"Canvass AI empowers industrial workforces with AI so they can be key participants in their industrial transformation."

– Matthew Littlefield,, Principal Analyst, LNS Research

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
