

# STREAMLINE ENVISION

Microsoft Power Platform

DREAM **BIG**  
START **SMALL**  
DELIVER **FAST**

# STREAMLINE ENVISION

We have designed the Streamline Series for Power Apps to support you in getting maximum value from the Power Platform and quickly unlock potential in your organisation.

Streamline Envision, Onboard and Realise are targeted, time-boxed engagements, allowing you to quickly demonstrate a return on investment. Because of this, Streamline for Power Platform is aimed at quickly and effectively solving unique, discrete problems and not digitally transforming a business. .

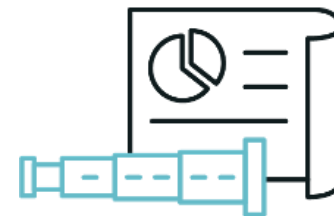

Streamline Envision can be of help for organisations in the initial stages of app development or process automation, or those that need some help in knowing where to start. This allows us to engage with your team to help you ideate the Power Platforms application in your business.

Streamline Envision is a targeted, timeboxed engagement, so that you can be introduced to the opportunity the Power Platform has for you and ideate its potential. Streamline Envision is aimed at transferring knowledge from experts that work with the Power Platform every day to those business users (technical and non-technical) that are exploring its capability.

1-week duration

\$11,000 (ex. GST) fixed cost

# HAVE YOU GOT THESE CHALLENGES?

Time consuming manual processes

No suitable “off the shelf” apps

Can’t effectively operate while mobile

Lack of development budget to build a bespoke app

### **Power Apps**

Build enterprise apps at scale to transform business processes and advance digital enablement.

### **Power Automate**

Create seamless cross-platform workflows that automate time-consuming tasks, eliminate paperwork and drive productivity.

### **Power BI**

Become a data-driven organisation by surfacing and sharing actionable insights with easy-to-use dashboards.

### **Power Virtual Agents**

Build chatbots that facilitate seamless engagement at customer and employee touchpoints, and capture valuable data to drive continuous improvement.

# OBJECTIVE

To build your knowledge, with practical learning and high touch collaborative ideation, so that you understand the art of the possible with the Power Platform, and its application in your business.

We'll help you visualise innovative solutions to improve your customer engagement, employee empowerment, operational optimisation, and product transformation.

# OVERVIEW

## Get to know “the art of the possible”

A full day of classroom-style training to cover the following topics: Common Data Service, Data Connectors, Power Apps and Power Automate.

## Try the technology yourself

A full day of practical labs that take your people through the building of a basic app and the creation of a simple automation flow using the topics covered above.

## Ideate together

A full day of workshop-style, whiteboard ideation where we collectively map out a list of apps or processes that could be built on the Power Platform, centered around a value proposition specific to your business.

# PROJECT CONSTRUCT

# APPROACH

Consultant led

1 – week engagement

Get to know the art of the possible

Try the technology yourself

Ideate together

# PROJECT TIMELINE

<b>Learn</b>	[Green bar]				
<b>Kick-off workshop</b>	◆				
<b>Intro to Power Platform</b>		◆			
<b>Try</b>			[Blue bar]		
<b>Power Apps Lab (half day)</b>			◆		
<b>Power Automate Lab (half day)</b>			◆		
<b>Ideate</b>				[Teal bar]	
<b>Ideation session 1 and 2 (half day each)</b>				◆	◆

# SUMMARY

## Outcomes

- Transfer knowledge from our technology experts to your business experts
- Highlight what is possible in your business using the Power Platform and the wider Dynamics 365 and Microsoft 365 capability.
- Learn practically with the right tools in a collaborative manner.
- Ideally suitable for less complex business requirements, that are starting out their process of an application build or process automation.
- Start small, dream big and learn fast, deliver and grow.
