

Tableau to Power BI Migration Accelerator

Powered by Generative AI for Faster,
Smarter Analytics Transformation

Modernize Analytics with Confidence

Organizations are rapidly transitioning from legacy BI platforms to modern, cloud first analytics ecosystems. The **Tableau to Power BI Migration Accelerator** is a **GenAI powered solution** that simplifies and accelerates the migration of analytics assets from Tableau to Microsoft Power BI—**faster, more accurately, and with minimal business disruption.**

The **Accelerator** enables organizations to move faster, reduce risk, and unlock modern analytics—**confidently and intelligently**

What the Accelerator Does:

A structured, enterprise grade solution to:

Assess and analyze
Tableau environments

Automate dashboard
and model migration

Optimize Power BI
performance and usability

Ensure data accuracy,
trust, and governance

All delivered through a **phased, low risk approach.**

Key Capabilities:

01

Automated Asset Discovery:

- Intelligent analysis of Tableau workbooks, dashboards, and data sources
- Metadata extraction, dependency mapping, and complexity assessment

02

GenAI Driven Conversion:

- AI assisted mapping of Tableau visuals, calculations, and logic
- Intelligent translation into **Power BI optimized dashboards and models**

03

Optimized DAX & Data Models:

- Automated generation of **clean, performant DAX measures**
- Scalable semantic models aligned with Power BI best practices

04

Smart Dashboard Modernization:

- GenAI powered recommendations for layout, performance, and usability
- Improves user experience beyond like for like migration

05

Built in Validation & Governance:

- Automated reconciliation between source and target dashboards
- Compliance with enterprise security and governance standards

06

Phased Migration Execution:

- Wave based migration to support business continuity
- Parallel run options to reduce risk and downtime

Projected Business Benefits:

High fidelity, trusted analytics outcomes

Reduced migration cost and manual effort

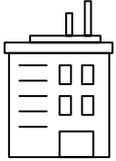

Improved dashboard performance and scalability

Up to 60% faster migration timelines

Future ready BI foundation for AI and Fabric

Who It's For?

Enterprises consolidating BI on **Microsoft Power BI**

Organizations reducing Tableau licensing and maintenance costs

Large, complex Tableau estates requiring **accuracy and scalability**

Teams accelerating **cloud, AI, and advanced analytics** adoption

Why This Accelerator?

GenAI Powered Intelligence

Understands analytical intent—not just visual syntax

Enterprise Grade Execution

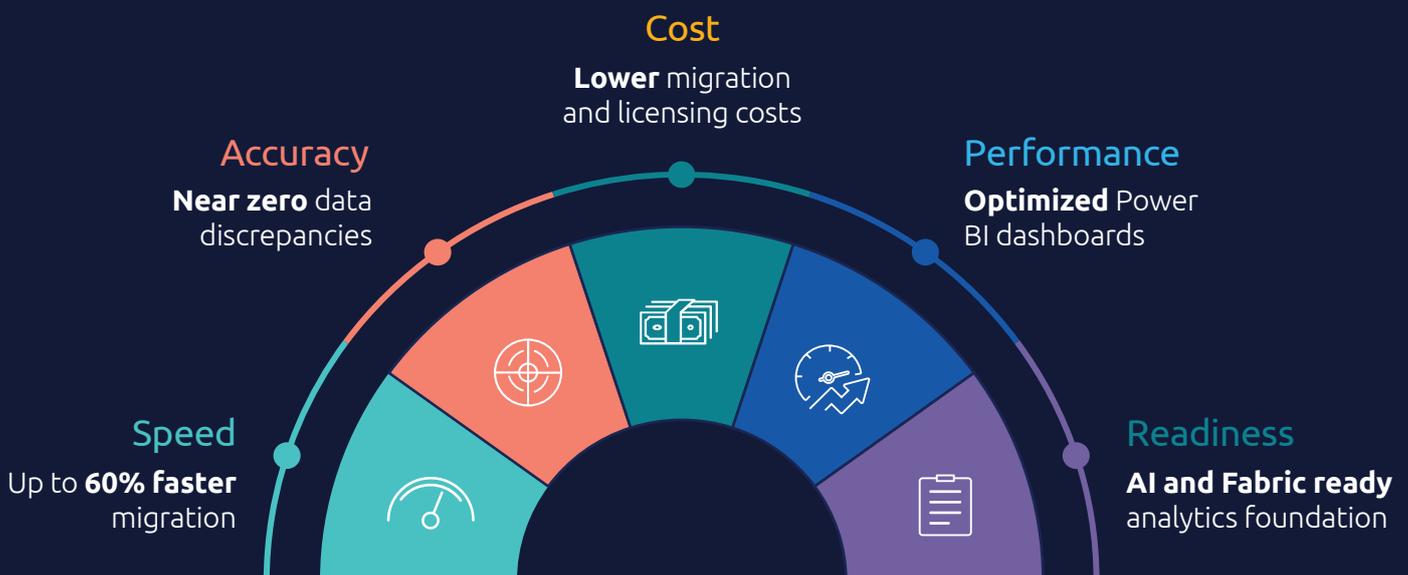

Scalable, governed, and proven for complex environments

Business First Outcomes

Modern dashboards that drive adoption and insight

Migration Impact Snapshot:

About Capgemini

Capgemini is an AI-powered global business and technology transformation partner, delivering tangible business value. We imagine the future of organizations and make it real with AI, technology and people. With our strong heritage of nearly 60 years, we are a responsible and diverse group of 420,000 team members in more than 50 countries. We deliver end-to-end services and solutions with our deep industry expertise and strong partner ecosystem, leveraging our capabilities across strategy, technology, design, engineering and business operations. The Group reported 2024 global revenues of €22.1 billion.

Make it *real*.
