# Intelligent Document Processing Jump Start

## Jump Start your Generative AI Journey

Sogeti's Intelligent Document Processing Jump Start leverages our AI Innovation Pod to automate your document-based workflows. Our design thinking workshop rapidly identifies your organization's most document-intensive processes and designs a strategic roadmap for implementing an intelligent document processing solution that transforms how your teams

### 80%
Of business processes are document-dependent and require strategic development

### 60%
Of an employee's time is spent on manual, repetitive tasks, such as data entry, which limits self-service adoption

### $4.5M
The average annual cost of manual data entry for a mid-sized enterprise, which fails to influence business decisions

## Benefits

### Increased Efficiency:
Automate the process of document processing and reduce the time it takes to process a document from hours to minutes.

### Improved Accuracy:
Reduce errors and improve the accuracy of your data entry process.

### Reduced Costs:
Reduce the costs associated with manual data entry and document processing.

# Intelligent Document Processing Jump Start

## Deliverables and Activities may include:

**1.** **Assessment & Recommendations**
- **Current State Analysis:** A comprehensive audit of your existing document processing workflows and technologies.
- **Architecture Review:** Evaluation of your current document management systems to determine the best approach for integrating an intelligent document processing solution.
- **User Experience Assessment:** Analysis of how your teams currently process documents to identify the best opportunities for automation.

**2.** **Knowledge Mining Acceleration**
- **AI Agent Configuration:** Deployment and setup of our pre-built intelligent document processing lab in your environment.

**3.** **Design Thinking and Roadmap**
- **Strategic Implementation Roadmap:** A phased approach with a timeline, priorities, and success metrics for scaling your capabilities.

## Use Case

### Challenge
An insurance company was struggling to manually process thousands of claims each day. The process was slow, inefficient, and costly.

### Solution
Through our Jump Start design thinking workshop, Sogeti implemented an intelligent document processing solution that automated the process of claims processing.

### Results
The company was able to reduce the time it takes to process a claim by **80%,** save millions of dollars in processing costs, and significantly improve customer satisfaction.
