

Game Warden for FedRAMP®

The Problem

Technology companies need FedRAMP accreditation to deploy their software on government networks. However, achieving FedRAMP compliance is a complex, time-consuming, and resource-intensive process that many organizations undertake, but few complete.

The Solution

Game Warden is the only end-to-end solution that enables multi-cloud FedRAMP accreditation with unmatched speed, cost efficiency, and customized expert guidance. Through a single platform, our customer scan deliver their software globally to federal civilian organizations, DoD entities, and the Intelligence Community.

The Second Front Difference

FedRAMP marketplace listing in as little as 180 days.

Cost-effective solution and predictable cost management.

Get FedRAMP authorized at Low, Moderate, and High ILs.

Multicloud Deployments:
 —AWS (available now)
 —GCP & Azure (H2 2025)

Finally, a single company for FedRAMP and beyond.

Second Front experts guide and support you throughout your FedRAMP journey.

Leverage one platform for all your FedRAMP authorization and DoD ATO (IL2 - IL6+ / JWICS) needs.
