

Microsoft Dynamics 365 Business Central

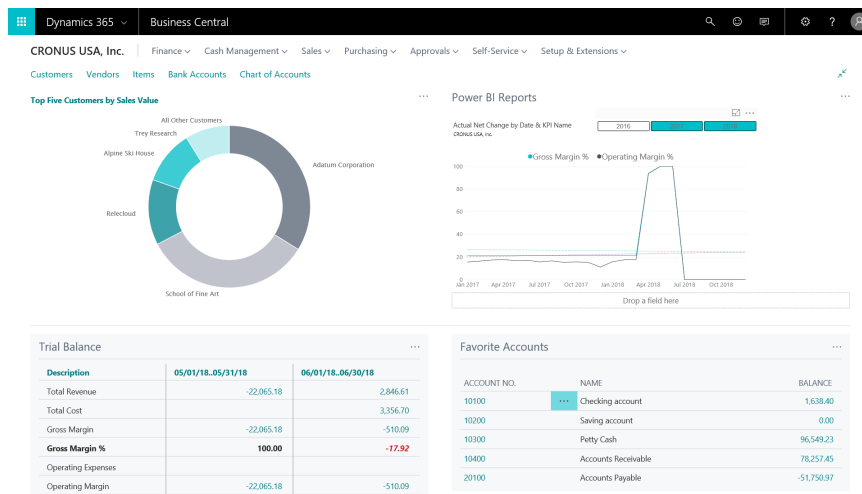

Fully Functional ERP, Designed for the Cloud

Microsoft Dynamics GP is a time-tested enterprise resource planning system that integrates with many common cloud software applications, compatible right-out-of-the-box with many third-party solutions.

As a Microsoft Gold Partner, Cargas has implemented Dynamics GP more than 300 times. Using our years of experience in technical integration, customization, and customer care, we can optimize your solution to fulfill the needs and emphasize the strengths of your business.

INDUSTRY STRENGTHS

Business Central's toolset is suitable for any small or mid-market business, with unique features designed for distribution and manufacturing companies. It is pre-built to be compliant with EU regulations for international businesses, and has specialized dashboards for your company's accountants.

FEATURES

Business Central offers a complete business solution, streamlining your workflow in every department.

- Financial Management
- GL, AP, AR
- Budgets, Consolidations, Fixed Assets

KEY BENEFITS

Online Integration

Business Central has built-in integrations with tools such as Outlook, Office 365, and Power BI, allowing you to access their powerful capabilities from any location or device.

Gain New Insights

Have a more complete view of your financials through Business Central's multi-currency and multi-location tools.

Versatile Functionality

Business Central has tools that can help every department run more efficiently -- whether finances, project management, HR, or manufacturing.

Customizable Workflows

Make Business Central work for your business by adding the processes your company uses into the system.

- Warehouse Management
- Manufacturing
- Forecasting
- Service Management
- Work Order/Contract Management

ABOUT CARGAS

Cargas was founded on the vision that creating a great place to work attracts talented and motivated employees who in turn will do their best to make our company a success.

Our Values

Our company purpose is to share our success with our employees, customers, owners, partners, and community. While software is our business, your success is our purpose. We were founded on three core values: Teamwork, Customer Care, and Employee Ownership.

Our Team

Cargas is an employee-owned company. More than 70% of our team owns Cargas stock. Because our employees are personally invested in our company, they're also invested in your success. Our employee ownership means we're built to last. We plan to transition ownership of our company to future generations of employee owners, not sell it. A partnership with us is a long-term commitment.

Our Approach

We don't believe in one-size-fits-all solutions. It's our job to understand your business inside and out so we can help you find the best solution to fit your needs.
