Streamlined  
Adoption Plan

Enhanced  
Data Governance

Reduced  
On-boarding Costs

**BENEFITS**

*Responsible AI plan*

# CoPilot Readiness Matters

- Conducting a thorough assessment before deploying M365 Copilot is crucial. This evaluation ensures your organization is prepared by assessing infrastructure, security, and compliance, while also identifying potential challenges and optimizing resources. Tailored data governance strategies can then be developed to meet your unique requirements and regulatory obligations.
- The benefits of this assessment include enhanced security, improved efficiency, and informed decision-making. Strengthening data protection and ensuring compliance are key for a smooth transition to M365 Copilot. Streamlined processes based on assessment insights increase the likelihood of a successful implementation with minimal disruptions.

# Implementation Deliverables

## Assessment and Planning

We will conduct a comprehensive assessment of your organization's current data storage, sharing, and permission practices.

## Licensing and Subscriptions

Ensure that your organization has the appropriate Microsoft 365 Licensing that include CoPilot Ready subscriptions.

## Department Ready Assessment

We will work with your team to determine which departments are ready to adopt CoPilot.

## Design Data Governance Strategy

Create a plan to introduce data governance policies and solutions to ensure responsible use of CoPilot that increases user productivity and aligns with corporate data sharing requirements.

## Remediation Plan

Most organizations have defined rules for sharing sensitive data but lack a comprehensive reporting and remediation plan to ensure compliance.

## Recommend CoPilot Champions

CoPilot works best when deployed for entire departments. We will make recommendations for the best teams become the CoPilot Champions and early adopters and evangelists!

## Readiness Report

Receive a comprehensive readiness report that includes information on current data policies and concerns based on user and shared data current practices.

## POC Suggestions

Receive a detailed plan to deploy a POC for recommended CoPilot Champions.

## End User Training Plan

Access to free training webinars and creation of a tailored training package to help users quickly adopt CoPilot.

## Ongoing Maintenance & Support

Our commitment doesn't end with deployment. We offer ongoing support and maintenance services to address any issues, perform updates, and optimize the solution as your business evolves.

## Customer Testimonials

*"We have been using Catalyst for eight years and in that time all of its employees have been unfailingly responsive and competent."*

*"Catalyst does customer service better than any other IT firm. The amount of time savings in research and expertise on products and software"*

*"Everyone is great to work with. I have never felt as if anyone has talked down to me because I didn't understand something."*

# About Catalyst

FOUNDED  
**2002**

STILL GROWING TODAY

SUPPORTING  
**700+**  
CLIENTS

Catalyst Technology Group, Inc. was established in 2002 and is headquartered in Indianapolis, Indiana. In 2002, our Chicago office was opened, and in 2012 we expanded to Denver. Catalyst was formed with the vision of taking enterprise-class systems and support processes and streamlining those solutions to offer small-and-medium size businesses enterprise-class IT support. Reaching out successfully to organizations that had never experienced this level of support, Catalyst has grown to over 700 customers in 3 primary markets.
