Azure OnRamp

The Cloud On Your Terms

With the constant of influx of new technology, the modern business is forced to adapt to keep up with demand. Traditional company processes may be antiquated and no longer work to drive efficiency, productivity, and security. As businesses look to transform digitally, they must take an all-encompassing approach, incorporating cloud across all functions and segments of their business.

THE CHALLENGE

Businesses face many challenges when migrating infrastructure, applications and data to the cloud. Time, expertise, cost and integration of existing technology can all be daunting factors. Catapult simplifies moving to the cloud, creating limitless possibilities for your business. Through Catapult's service-based approach, we continuously look for ways to improve our customers' cloud strategy, while providing ongoing support of your cloud solutions. Catapult shapes an effective approach that assesses your current environment and provides a roadmap forward to an Azure-enabled digital ecosystem, while prioritizing drivers that will bring the most value across all segments of your business.

*We help you discover, imagine and harness the power of the cloud.*

Leveraging the cloud, Catapult enables agility, scalability and performance, helping optimize IT and drive innovation. With Microsoft Azure, your business will reduce large overhead costs related to hardware, software, data storage, expertise and ongoing maintenance.

HOW IT WORKS

Using a prescriptive, value-based approach, we take a look at the holistic needs of your business. Starting with our discovery phase, we gain an understanding of your business and technical needs, providing you with a detailed scope of your cloud migration. We then take a deeper look into your current environment, delivering a cloud roadmap, as well as an outline of the expected benefits you will see.

Developing a detailed migration plan for your workloads, we help you make a smooth transition, without sacrificing potential business opportunities. Once all cloud solutions have been integrated, Catapult ensures you stay on track, tapping into data-driven insights to measure success and making improvements along the way.
