Digital Workplace Foundations

Creating a digital workplace with the right tools to support your employees' productivity, engagement, and collaboration can be overwhelming. **Catapult's Digital Workplace Foundations** can help you discover how Microsoft 365 can power your employee experience with an efficient platform, security tools, and seamlessly integrated productivity tools all in one place.

This foundation is perfect for companies who are starting their digital workplace journey or need a holistic view of their digital workplace strategy.

HOW IT WORKS

Catapult follows a prescriptive approach to help support your employees and encourage productivity and adoption.

1. **Discover:** We assess your current environment and the tools you use.

2. **Analyze:** We analyze your security posture, identify your technical opportunities and assess your organizational readiness.

3. **Envision**: Through an Innovation Workshop, we discover your business goals and align them to one or more of the eight core pillars of the digital workplace — identity, compliance, governance, analytics, adoption and change management, communication, collaboration, or applications.

4. **Roadmap:** We create a roadmap that prioritizes and plots the implementation of your specific business scenarios over 0–3, 3–6, or 6+ months. We align your business scenarios, determined during the innovation workshop, to the right technology.
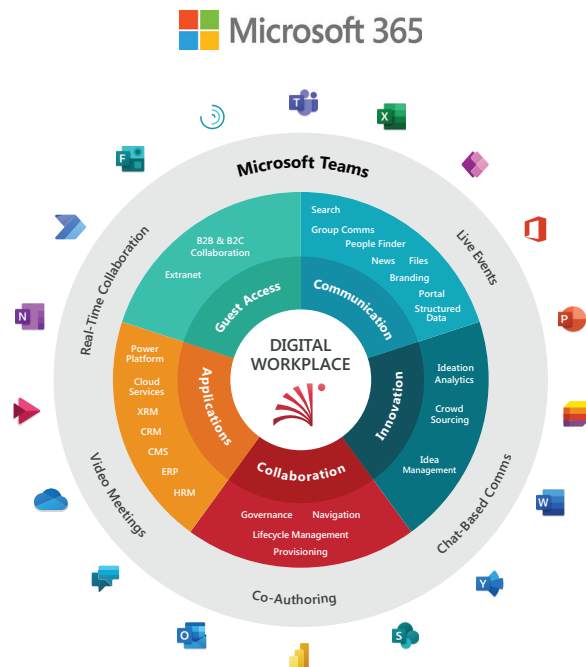

LENGTH:

Client commitment: 12–14 hours; 4–6 weeks of signal collections.

WHAT YOU GET:

Findings, recommendations and a prioritized Digital Workplace Roadmap with two tracks: **Improvement Track** and **Project Track.**

1. **Findings** of critical components that must be remediated to ensure the success of a Digital Workplace.

2. **Prioritization** of business scenarios and technology alignment that will achieve the business goals defined.

3. **Timeline** for enablement of key digital services and solutions of prioritized business scenarios.

4. **Change management and adoption initiatives** to ensure the implementation and adoption of the program is a success.

We build the experiences that inspire your employees that drives your business.
