

Azure Migration Consulting

Cloud Assessment and Discovery: to evaluate current environments.

Cloud Readiness Assessment: Ensure preparedness for cloud adoption of on-premise assets.

Azure Landing Zones: Establishing secure and compliant cloud environments.

Cloud Workload Migration: Ensuring seamless transition of data and applications between environments.

Cloud Cost Optimization (FinOps): Reducing expenses and maximizing value from cloud services.

Well Architected Review (WAR): Identifying areas for improvement and best practices.

Managed Azure: Ongoing management for stability and efficiency.

VMware on Azure (Microsoft AVS)

Enable a secure, scalable solution with Azure VMware Solution

Built-in continuity, speed and scale with modern infrastructure

Leverage existing VMware skills, and tools

Seamlessly modernize apps overtime with Azure

Unmatched cost savings for Microsoft customers
(1 or 3 Year Agreements)

Accelerate, Modernize, Simplify

Migrate VMware "as is"
(Azure VMware Solution (AVS))

Modernize to native Azure
(Azure IaaS and PaaS)

- Retain VMware skills, familiar tooling
- Migrate quickly/datacenter exit, no application modifications required

- Leverage Azure and cloud skills
- Modernize with flexible IaaS and PaaS services

- Use VMware technology stack on Azure for symmetry with on-premises
- VMware subscription licenses included, no on-prem license required

- Shift to Azure compute, storage, and networking infrastructure
- No VMware licenses required

Azure VMware Solution Professional Services from CBTS

Readiness Assessment, Planning, Migration and Replatforming

CBTS Professional Services can conduct a comprehensive readiness assessment, and guide customers through best practices for migrating workloads from VMware to Azure. A defined Scope of Work can be created that meets your needs and expectations.

- Review existing VMware workloads
- Review end point Security Requirements
- Review end point update process
- Review access to environments
- Discuss desired goals & outcomes
- Review of current Microsoft 365 environment, identifying vulnerabilities through CIS benchmarking
- Recommendations for tools and best practices to enhance security
- Providing guidance for end user self-enrollment
- Project Manager provided by CBTS to lead engagement and be primary point of contact for customers
