

Discover, Envision, Educate and Plan for Microsoft Modern Endpoint Solutions

Microsoft Modern Endpoint Strategy Briefing

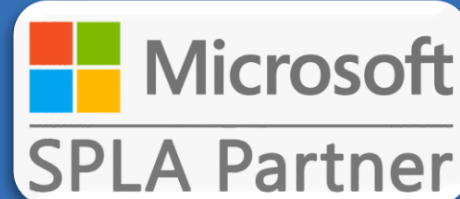

Bring your team to this in-person strategy briefing where we will review your business objectives, discover your current environment state, identify gaps to success and review the latest in Microsoft modern endpoint technologies. Whether your team is new to Microsoft modern endpoint, or already in a production rollout, our solution architects will educate your team on the latest developments and strategies for modernizing your endpoint fleet leveraging solutions such as:

- Windows 11
- Windows Autopilot
- Azure Active Directory
- Microsoft Intune
- Microsoft Surface

Activities Include:

- Current state review of existing environment
- Identity business objectives and use cases for modern endpoint technologies
- Educate Customer team on latest modern endpoint technology developments from Microsoft
- Establish clear, concise next steps for modernizing endpoints
- Learn through “Art of the Possible” sessions
- Try Microsoft Surface device hardware
