

Expert Guidance on Adopting Compliance and Governance services for your Microsoft Ecosystem.

Microsoft Purview Compliance Manager Workshop

A “CDI Services Hub Offering”

Is your organization properly governing your Environment? Do you have Compliance or Governance requirements to meet? Are you meeting those requirements?

In this engagement, CDI's consultants will leverage their years of field experience to work with your organization to show the features of Microsoft Purview.

CDI will assist in evaluating features of your current licensing that may be not implemented but can provide additional value to organizational goals. CDI will also review Microsoft Purview Compliance Manager, Governance, Built-in templates, and the Configuration Analyzer for Microsoft Purview to give you and your team a better understanding of the possibilities of Microsoft 365 compliance and governance tools.

Example Objectives Include:

- Validation of Secure configurations
- Remediation Documents of at-risk findings
- Improvement of Compliance Manager Score
- Overview of Automated/Continuous Assessments
- Compliance Manager Adoption

Why CDI?
