

AZURE OPENAI CRASH COURSE

Cloud

At CDW, we understand that getting valuable insights from your peers and technical leaders in the emerging world of Generative AI are key priorities for your organization. Having a fundamental understanding of this technology is critical for developing a winning generative AI strategy.

Join us for an exciting guided tour of Azure OpenAI services. We'll teach you the fundamentals, explain the differences between ML, AI and GenAI, give you real-world applications, and let you experience interactive prompt engineering with Azure Chat Playground. Plus, it's only two hours — so your investment is short and sweet while the insight gained is invaluable.

CDW's Azure OpenAI Crash Course can help you achieve:

Operational Efficiencies

Agility

Increased Performance

A NO-COST AZURE OPENAI EXPERIENCE

You will leave the Azure OpenAI Crash Course feeling knowledgeable on a host of topics that are essential in today's tech space. With this foundation under your belt, you're ready to create intelligent solutions that solve complex problems quickly.

AI/ML and Generative AI: We'll start by exploring the key concepts of AI/ML and Generative AI. We'll explain the difference between the two and provide a clear understanding of how they are used in real-world applications.

Azure Cognitive Services: In this section, we'll provide an overview of Azure Cognitive Services. You'll learn how Azure Cognitive Services work and how they can be used with Azure OpenAI.

Live Demonstration of Azure Chat Playground: One of the best ways to learn is by doing! That's why we'll walk you through the Azure Chat Playground. You'll learn how the playground works and see a live demonstration, and we'll give you interactive activities to engage with the Azure Chat Playground.

Exploring Azure Cognitive Search and OpenAI: We'll then work with Azure Cognitive Search and OpenAI. We'll also provide interactive activities so you can better engage with the experience.

Wrap-Up: We'll recap the key concepts and skills we covered throughout the course. There's also a Q&A session so you can ask any questions you may have. Lastly, we'll provide you with next steps so you can continue to learn and work with CDW, Azure Cognitive Services and OpenAI.

CDW's full lifecycle of Services can support your organization no matter where you are on your journey
