

SENTINEL RAPID DEPLOYMENT

Security

GET FULL CONTROL OF YOUR ENVIRONMENT

Looking for a dashboard to help monitor and keep your environment secure? Running automation to help create efficient ways to track and monitor security events? Microsoft Sentinel gives you the tools you need to help centralize your security monitoring, automation and response strategy to help keep your company safe.

WHAT YOU GET

Microsoft Sentinel is an advanced security analytics, threat intelligence, threat hunting and automation platform that allows organizations to correlate threat signals from multiple sources to increase attack detection, increase threat visibility and accelerate incident response.

This rapid deployment, optimized for small to medium-sized businesses, enables customers to quickly realize value from their investment in Microsoft Sentinel. As part of this engagement, a CDW M365 security subject matter expert will deploy and configure Microsoft Sentinel, onboard common data sources, configure out-of-box analytic rules and workbooks and create basic automation playbooks.

WHAT'S INCLUDED

- Sentinel configuration
- Sentinel onboarding
- Configure Azure and M365 data source connectors
- Configure on-premise data source connectors
- Configure out-of-box analytics rules
- Enable out-of-box and data source-specific workbooks
- Automation rules and playbooks
- Create automation rule to run playbooks for new incidents

CDW'S SECURITY APPROACH

Our risk-based approach to security is based on the NIST Cybersecurity Framework, which allows organizations to achieve their ideal security posture. We work with you to:

PREPARE

We help our clients create and align strategies and programs to address ever-evolving business risks. This includes creating a relevant and achievable security roadmap.

DEFEND

We work collaboratively with clients to decide which technologies to implement to protect against cyberthreats.

RESPOND

We monitor critical business assets, respond rapidly to incidents and validate the effectiveness of security controls 24x7x365, so you don't have to.

RELY ON CDW'S BEST-IN-CLASS SECURITY PROFESSIONALS

Our team has:

- 100+ certifications spanning the breadth of the security domain, including secure architecture, log & data analytics and threat prevention
- 15+ years consulting for Canadian organizations
- Every consultant has a foundation in operational excellence and at least five years of field experience
- Highest level of partner recognition from top security vendors
