

CLOUD LANDING ZONE

Cloud

ACCELERATE CLOUD MIGRATION

Transition to the cloud quickly and securely with a CDW-built cloud landing zone. Lay the foundation for your cloud environment and start migrating workloads from your on-premise data centres.

WHAT IS A CLOUD LANDING BUILD?

A CDW-built cloud landing zone is the starting point for cloud migration. CDW works with you to build a secure cloud foundation that is connected to your on-premises data centre and ready to ingest your workloads. Once built you can begin to migrate workloads.

WHY CUSTOMERS TRUST A CDW-BUILT CLOUD LANDING ZONE?

- CDW is proudly partnered with Microsoft as an Azure Expert MSP
- We are security-first focused

SECURITY

- Build your cloud environment starting from a secure foundation
- Establish a central role-based access control by leveraging your existing active directory and extending it to the cloud

CONFIDENCE

- Adopt best practices prior to moving critical workloads to the cloud
- Ensure core services are present and properly configured

AGILITY

- Reduce deployment time
- Provision new workloads in seconds
- Migrate existing workloads at your own pace

CLOUD LANDING ZONE

The term landing zone refers to an environment that's been provisioned and prepared to host workloads in a cloud environment. A fully functioning landing zone is the final deliverable of any iteration of the Cloud Adoption Framework's Ready methodology.

On-premises data centre

SCOPE OF THE CLOUD LANDING ZONE BUILD

PHASE 1: KICKOFF AND DISCOVERY

- Review existing architecture and inventory
- Develop high-level plan for connectivity, RBAC and proposed cloud build

PHASE 2: LANDING ZONE BUILD

- Deploy and configure cloud landing zone components
- Establish connectivity between on-premises and the cloud environment
- Verify environment functionality

PHASE 3: PROJECT CLOSURE

- Prepare documentation of the cloud environment
- Hold a knowledge transfer session with your team
- Ensure your team is equipped to build upon your new cloud foundation

ADDITIONAL BENEFITS

If you are looking for more than a basic landing zone, CDW can help with adding the following items to your build.

- Leverage next-generation firewall
- Configure active directory, LDAP or SSO
- Monitoring, backup and/or disaster recovery solutions
- Third party web application firewall appliance
- Azure ExpressRoute

CDW CLOUD PRACTICE

Our CDW cloud practice accelerates the development process, enables your team to manage infrastructure more autonomously and ultimately improves your experience.

- We are a Microsoft Azure Expert MSP certified
- CDW's cloud practice has a bench of cloud certified professionals to support your cloud journey
- We use automation tools to deploy your cloud landing zone, which reduces risk, time and costs

FOCUS AREAS

FUNDAMENTALS	 CLOUD ADOPTION	 REMOTE WORK	 MANAGED SERVICES
	LICENSING		
	DIFFERENTIATORS	 CLOUD SECURITY	 APPLICATION MODERNIZATION
