# Managed Sentinel

## Security

**SERVICE OVERVIEW:**

In today's ever-evolving threat landscape, comprehensive visibility of your environment and swift threat detection are paramount to safeguarding your organization. Our Managed Microsoft Sentinel service is designed to help ensure you have full visibility of potential threats.

With CDW's Managed Sentinel Service, threat signals from multiple security controls are stitched together as part of a chain of events, enabling our analysts to rapidly identify and investigate security incidents. CDW is an Azure Expert Managed Service Provider, which guarantees that a seasoned Microsoft security subject matter expert will help you make the most of your Sentinel solution.

**SERVICE FEATURES:**

- 24X7X365 advanced threat detection, incident monitoring, investigation and escalation for Microsoft Sentinel

- Microsoft Sentinel health monitoring

- Canadian-based advanced security operations centre

- Monthly security incident and service reporting

**SERVICE BENEFITS:**

- Gain an enterprise-wide view of security across your environment, allowing a rapid detection of potential threats

- Leverage our highly skilled and specialized security analysts allows you to reduce the impact of costly security staff recruitment and training and to refocus your internal staff on more strategic core business functions

- Manage risk through ongoing security false positive tuning, consultation and security content development

- Take advantage of optimal Microsoft Licensing packages to harmonize and reduce your third-party IT spend

**CDW**

## CDW'S SECURITY APPROACH

Our risk-based approach to security is based on the NIST Cybersecurity Framework, which allows organizations to achieve their ideal security posture. We work with you to:

### PREPARE

We help our clients create and align strategies and programs to address ever-evolving business risks. This includes creating a relevant and achievable security roadmap.

### DEFEND

We work collaboratively with clients to decide which technologies to implement to protect against cyberthreats.

### RESPOND

We monitor critical business assets, respond rapidly to incidents and validate the effectiveness of security controls 24x7x365, so you don't have to.

## CERTIFICATIONS

Our service is designed to ITIL best practices. In addition to ITIL, COBIT and other certifications held by our team members, our practice is certified and compliant with:
