

CDW SERVICES:

MICROSOFT AZURE MIGRATION PILOT FOR WINDOWS SERVERS

GET THE MOST OUT OF YOUR MICROSOFT AZURE INVESTMENT

Organizations need to reduce their capital expenses and minimize the endless addition of servers, storage and IT infrastructure to support business demands. Microsoft Azure provides a scalable and flexible platform to serve as a data center infrastructure on-demand without investing in hardware or software.

The Microsoft Azure Server Migration Pilot will assist your organization in planning a pilot migration of up to five on-premises supported, non-mission-critical virtualized Windows Servers to Azure. CDW will assist deploying and configuring Azure Site Recovery (ASR) and migration/validation of the five servers to Azure.

WHAT CAN CDW DO FOR ME?

The Azure Migration Pilot will include the following:

- Review of your organization's on-premises environment
- High-level understanding of server and networking environment
- Assist with planning the pilot migration to understand the projected Azure configurations and costs, and the steps necessary to execute migration
- Set up on-premises services/infrastructure necessary for migration into Azure
- Testing, piloting and execution of migration plan for up to five supported, non-mission-critical virtualized (VMware or Hyper-V) Windows Servers
- Validate successful migrations

The Azure Migration Pilot will *not* include the following (if needed, the following can be completed via additional projects):

- Azure Migration Assessment
- Application dependency mapping
- Initial configuration of Azure infrastructure, including connecting to on-premises infrastructure for networking and Active Directory

THE BENEFITS

- Azure helps speed development, simplifies deployment and enables IT to respond quickly to changes in business and customer needs
- CDW consultants are experienced in designing and building Azure solutions, allowing you to get up and running quickly
- Gain knowledge and insight on the best use of Azure based on your business goals and requirements

WHY CDW?

CDW is uniquely qualified to design IT solutions that help remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.

We can help you navigate Microsoft's robust array of solution offerings, including Microsoft Azure. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid environments. Based on your business demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer best-of-breed providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.

We get Microsoft. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.
