Creative Dynamix Solutions Inc. is the brainchild of Mr. Enrico Ramon Villa and Mr. Emmanuel Barretto borne out of their common desire to ensure that every engagement spells success for customers. We achieve this by enabling our clients to meet their business goals by providing them with optimized, dynamic and innovative solutions.

The company is 100% Filipino owned and managed by Accounting and IT professionals with proven track records in their fields of specialization. The Management Team:

Enrico Ramon Villa, CPA, Managing Director – Solutions Architect / Business Process Analyst

Emmanuel Barretto, Director for Business Development – Sr. Supply Chain / Production / Master Planning Consultant

Miles Carpena, CPA, Director – Sr. Finance / Supply Chain Consultant

Kevin Pampilo, Director for Technical and Development Services – Sr. Finance / Supply Chain / Production Consultant

## VISION

Our aim is to become the leading provider of optimized business applications and software solutions in the areas where we operate.

## CORE VALUES

### Partnership

We build long lasting partnerships with our clients, suppliers, colleagues, and employees. Anchored on truth and trustworthiness, we gain leverage through honest and humble professional services. Our employees are family, and their welfare are our priority. Our partnerships with our customers go beyond revenues. We present all options, even at the expense of our profits. Our client's success is ours to celebrate.

### Integrity

We tell you what you need to hear. We suggest new ways of doing things in accordance with industry best practices. We accept mistakes with responsibility and accountability. We do not compromise the truth.

### Commitment

We seek excellence in everything that we do, big or small. It is in the details. Our experience enables us to ask the right questions, focus on the legitimate issues, and seek flexible, effective, workable, and practical solutions. The business world evolves rapidly. We do not believe in hard coding solutions but rather provide scalability in all our approaches.
