Partner

Our Services

We help customers overcome and innovate where their legacy applications were holding them back. Our modernization services help you modernize an existing app for cloud optimization. Our customers turn legacy workloads toward competitiveness and innovation by modernizing their code base, cloud enabling their infrastructure, and automating process through DevOps.

The Benefits of Modernization

- Limitless application scalability
- Stronger, more manageable security
- World-class durability and redundancy
- Expanded customer reach
- Reduced infrastructure and development costs
- Increased speed to innovation & agility
- Unified telemetry and analytics
- Serverless solutions boost developer productivity, optimize resources, and accelerate innovation
- Automation through integrated DevOps
- Modernize, secure, and scale your data platform
- Leverage cloud first services like API Management, IoT Services, and Machine Learning

Application Modernization – Workshop / ADS / POC

Get hands-on experience and learn best practices for modernizing existing applications and workloads by leveraging the power of the Azure cloud.

Start by exploring an existing application and environment and work towards identifying a modern, cloud-based solution through an interactive workshop / architecture design session (ADS).

Get hand-on experience building a POC while modernizing a given workload and moving toward greater cloud enablement & application modernization.

What Sets Us Apart

CEI is a group of curious and creative individuals, dedicated to providing the highest levels of service for our customers. Our team of experts believe in combining proven methods, technology solutions, and tools to craft extensible and maintainable applications.

Our employees are the key to our success – delivering amazing solutions and results for our customers, while fostering a culture of innovation and collaboration.

Fast Facts

- Microsoft Certified Gold Partner since 2004
- Microsoft Managed Partner since 2013
- Microsoft East Region Rookie of the Year
- 6 Gold and Silver Microsoft Competencies
 - Application Development
 - Azure DevOps
 - Cloud Platform (Azure)
 - Data Analytics
 - Application Integration
 - Collaboration & Content
- Microsoft National Systems Integrator (NSI)
- Deployment Planning Services (DPS) Partner
- NMSDC Minority Certified
- 3 Microsoft Certified Solution Specialists (P-SSP)
- 6 Microsoft Partner Tech Solutions Pros (P-TSP)
- 1 Microsoft Certified Cloud Solution Architect (P-CSA)
- 14 Microsoft Certified Product Specialists (MCPS)
- 7 Microsoft Certified Technology Specialists (MCTS) 7
- Microsoft Certified Solution Developers (MCSD)
- Actively involved with community user groups, code camps, conferences, and speaking engagements.

Quick Start Sessions

Our architects focus on providing seamless implementation of new technologies. We start by assessing an organization's business needs through strategy briefings, technology evaluations, and workshops. We then work with customers on designing an application architecture tailored to their needs.

Blended Mentoring

We pride ourselves on the ability to mentor client teams while assisting with implementation. We provide our client's with the assurance they will be able to further develop and support the applications we help build. Through side-by-side development assistance, we discuss best practices and techniques to extend value and reduce risks for businesses and development groups.

Our Practice Areas

- User Experience & Visual Design
- Architecture & Design
- Business Analysis
- Quality Assurance & Automated Testing
- Cloud Solutions
- Web & Mobile Applications
- DevOps & Agile Transformation
- Application Integration & Orchestration
- Collaboration & Content Management
- Bots, AI, & Intelligent Apps
- Big Data, BI, ML, and Data Science
- Database Services
- Mixed / Virtual Reality & Simulation

About CEI

CEI delivers solutions that help our customers transform their business and achieve meaningful results. From strategy and custom application development through application management, our technology and digital experience services are tailored to meet the unique needs of our customers. Our staffing solutions bring specialized skills to complement our customers' workforce and project requirements.
