

# AI-powered form recognition to accelerate form-based business process optimization

Microsoft Gold Azure Cloud Partner.  
Turn your forms into usable data at a fraction of the time and cost. Focus more time acting on the information rather than compiling it.

Partner

## Simple Extraction

Form Recognizer learns the structure of forms to intelligently extract text and data to be stored for analysis / query

## Customized Results

Applies machine learning to identify keys and tables and then outputs structured data that includes data relationships

## Flexible Deployment

Ingest data from the cloud to the edge and apply to search indexes, business automation workflows using RPA, and more

## Built-In Security

Enterprise-grade security and privacy applied to both your data and any trained models

## Getting Started

Work with our Azure experts to quickly workshop a solution using your existing forms. Develop a PoC to process data, visualize business intelligence, and or integrate with legacy systems.

We will prove out the ROI and build a roadmap toward future process automation.

## Quick Start Sessions

Our architects focus on providing seamless implementation of new technologies. We start by assessing an organization's business needs through strategy briefings, technology evaluations, and workshops. We then work with customers on designing an application architecture tailored to their needs.

## Blended Mentoring

We pride ourselves on the ability to mentor client teams while assisting with implementation. We provide our clients with the assurance they will be able to further develop and support the applications we help build. Through side-by-side development assistance, we discuss best practices and techniques to extend value and reduce risks for businesses and development groups.
