

AgentGarage.ai

Enterprise-Grade Platform for Deploying & Scaling AI Agents with Confidence

Next-generation enterprise AI platform that delivers secure, persona-driven intelligence through autonomous agents, multi-modal RAG, and real-time retrieval across proprietary systems. By combining agentic AI, embedded workflows, and enterprise-grade observability, it empowers organizations to automate complex processes, enhance productivity, and scale securely with confidence.

Agent Garage Overview

Enterprise-Grade Security & Compliance

Robust controls ensuring privacy, safety, and regulatory adherence

Agent Governance & Observability

Enterprise-grade control, monitoring, and traceability of agent actions

Design & Compose

Visual drag-and-drop workflows for faster automation

Pre-Built Industry Domain Agent Templates

Built-in templates for various industry use cases.

Multi-Agent Orchestration & Federation

Seamless collaboration between autonomous persona-driven agents

Faceless ERP & Deep System Integrations

Execute ERP tasks securely without exposing UI

Executing Complex Workflows - Use Cases

Contract-to-Billing

Document Intelligence Agent

Customer Onboarding

SAP Entity Matching Agent

Purchase Order Approval

Compliance Checker Agent

Sales Order Creation

Invoice Parser Agent

Features and Functionalities

Productivity Builder

Doc Search (All Files)

Excel, CSV, Docs, PDF, Txt, Images, JSON, etc.

Deep Research

Large context data handling

YouTube Q/A

Summarization, Q/A, transcript generation, etc.

Process Reasoning

Smart Query Responses

Private Workspace

Chats & Docs Stay Private

Library and Sharing

User Prompts, Chat & Sharing

Workflow Builder

Drag & Drop Interface

Build Workflows with Modular Nodes

Smart Triggers

Automate flows based on events, schedules

Conditional Logic & Branching

Build workflows with logics and loops

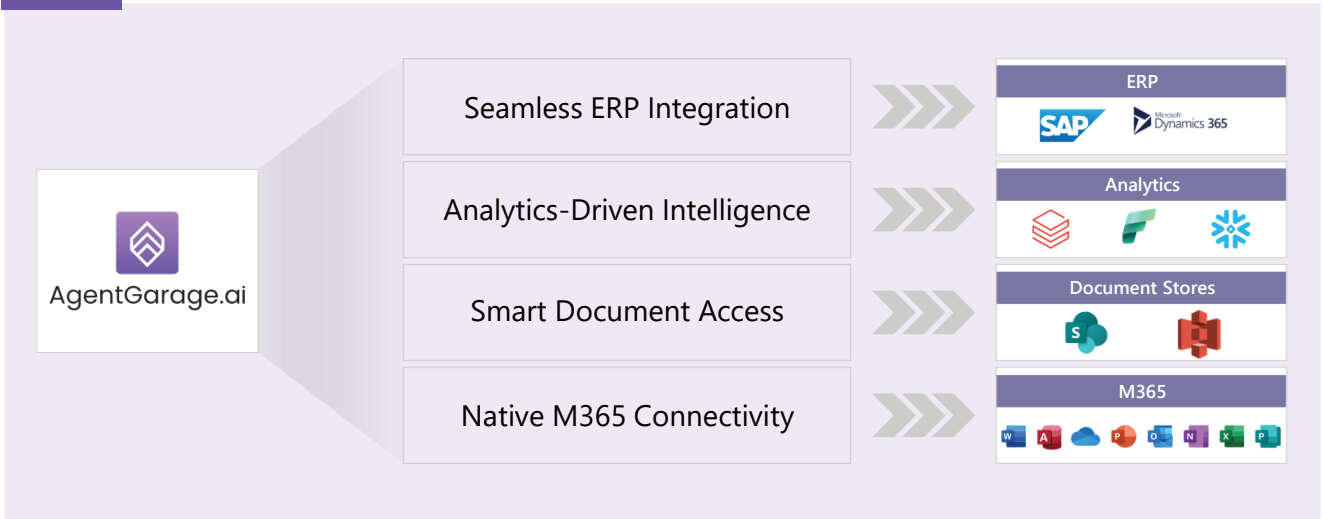

Doc Search (All Files)

Teams, Outlook, SAP, Databricks, SharePoint, etc.

Agent Driven Actions

Custom AI agents as per requirements

Pre-Built Connectors

Industry Applications

Manufacturing

- Production scheduling and dynamic re-routing of assembly tasks
- Automate product designing and iterative improvements

Energy

- Develop risk-adjusted trading strategies
- Monitor boil-off gas and shift logs while detecting energy consumption anomalies

Financial Services

- Automated reach-outs and request fulfillment for relationship managers
- B2B customer risk profiling for credit enquiries

Retail & CPG

- Personalized (headless) cart building through agents
- Manage inventory and replenishments

T-shirt Sizing

Tier	Trial	Basic	Standard	Premium
Ideal for	Initial exploration, quick value demonstration.	Pilot project; quick win use cases.	Moderate automation across 2–3 processes; richer multimodal features.	Enterprise, cross-functional automation, mission-critical processes.
Core deliverables (what we deliver)	Access to the latest version of the tool for 5 team members hosted on Celebal Tech's tenant	Productivity Suite	Productivity Suite + Workflow Builder with orchestration patterns, YouTube video Q&A, image handling	Full multi-agent orchestration, advanced vision/audio analytics, private workspaces.
Agents (typical) & Workflows (count/type)	Limited access for 5 users, up to 20 queries/user/day for 3 days Auto-expiry post duration (All agents from the latest version of the productivity suite will be available to chat with)	Agents: 3–4 (File Upload & Notification, RAG Agent, Docless Agent, SQL/EDA Agent) + 1 custom industry-specific domain agent Workflows: 1 simple flow (ingest → triage → RAG → response / basic approval)	Agents: 4–5 (adds YT Agent, Image Agent, Deep Research + 2-3 custom industry-specific domain agents). Workflows: 2–3 simple to medium complexity (e.g., intake→WO→field diagnosis→claim submission; lead→enrich→route)	Agents: Full suite: adds Vision agents + 4-5 custom industry-specific domain agents Workflows: 5–6 complex, cross-system orchestrations
UI Features	All UI features of the latest version of the tool will be available	<ul style="list-style-type: none">▪ Multi-user chat interface▪ Delete document & chat reset▪ Rename chat & chat history management▪ Citations for document-based answers▪ Document upload and previews▪ Multilingual support▪ Web/ Teams tab app deployment	Everything in S + <ul style="list-style-type: none">▪ Web search integration for RAG grounding▪ Watermark footnotes showing agent used▪ Recommended queries & prompt suggestions▪ Prompt/chat sharing▪ Progress bar & cancel upload▪ Prompt library▪ Chat instructions▪ Voice input/output support	Everything in M + <ul style="list-style-type: none">▪ Custom UI requirements▪ Web/ Teams tab app deployment
Supported formats & connectors	---	Formats: PDF, DOCX, XLSX, CSV, TXT. Connectors: SharePoint, Teams, Outlook.	Formats: All above + PPTX, JPEG/PNG, video links (YouTube). Connectors: All above + ServiceNow, Salesforce, Databricks.	Formats: All above + raw audio/video processing, high-res images, JSON, CAD/engineering files. Connectors: All above + SAP, custom connectors.
Implementation cost (USD)	Free	\$150K	\$350K	\$500K+
Timeline	2-3 days (setup and access provisioning)	6–8 weeks	8–14 weeks	16–28 weeks
Estimated Azure ACR (USD)	---	\$250K – \$750K	\$750K – \$3M	\$3M – \$12M+
