

Hire the best talent, quickly and easy

CEM Applicants Tracking System (ATS)

CEM ATS simplifies the time consuming and manually daunting recruitment process. It uses the latest 'PowerBI – low code no code' technology and has all the functionalities from manpower planning till onboarding the candidate. With CEM ATS, you can now hire the best candidates at ease, faster and economical. CEM ATS can emulate your website, adapting to your corporate look and feel.

In short, it is a mobile friendly hiring software that works exactly, the way you want it.

WHAT WE OFFER

Integrated system

CEM ATS is an end to end hiring solution. It simplifies your hiring process from manpower request till onboarding your new hire. CEM ATS connects your business users, business managers, recruiters, HR managers and the candidates seamlessly. It connects with your intranet job portal, external social media and job boards.

All in One Cloud

CEM ATS is hosted in Azure and is integrated with LinkedIn, Dynamics 365, MS Office, Teams, PowerBI etc. This means you can post your jobs ads in LinkedIn, create e-mail notifications, integrate to calendars, interview using Microsoft Teams, store video / audio / text / image files in SharePoint, export data for onboarding, connected to your core HR and ERP.

Delight the candidates

CEM ATS gives a delightful experience to candidates. All candidate related processes right from job application, interview, questionnaire, offer letter and acceptance through DocuSign are automated. In addition, candidates have their own self service portal. This professional experience would attract top candidates to join your organization.

Speed and Quality

CEM ATS is built with many intelligent functions like 'manpower requests, approvals, JD templates, Hot-match, workflow, candidates comparisons, e-Verify, alerts, reminders, salary negotiations, integration bi-directionally with your HR and ERP systems, etc. These features enhance your hiring speed and quality of the selection.

WHAT OUR CUSTOMERS ARE SAYING

"Hiring a right candidate was very time consuming. Partnering with CEM was an important step in the process. CEM understood our needs and provided a solution that not only saved time but also fulfilled our needs. There is a 40% reduction of processing time."

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
