1 Introduction

The following questions will give Centric Consulting an overview of your current environment. This allows Centric to assess your security posture across identities, devices, and data and develop the most appropriate deployment guidance to meet your business needs.

Work with your project team to provide the requested information with as much detail as possible to facilitate your planning activities. Completion of the questionnaire typically requires input from several project team members. Depending on company structure, the following roles are typical participants in completing the questionnaire.

- Executive Sponsor/Stakeholder
- Project Manager
- Security Lead/Architect
- Cloud and infrastructure Engineer/Consultant

2 Microsoft 365 Tenant Details

We highly recommend that you have an active Microsoft 365 tenant as you work with this questionnaire. If you haven't activated or configured a Microsoft 365 tenant yet, see [Plan your setup of Microsoft 365 for business](#).

Contact us to gain access to the following table and more to capture information about the Microsoft 365 tenant.
