

DATA & ANALYTICS - RAPID ANALYTICS ACCELERATOR

Centrilogic's Rapid Analytics Accelerator aims to reshape the way your organization manages, accesses, and capitalizes on its data. By leveraging Microsoft's AI-powered Fabric platform, your team will benefit from accelerated platform adoption, faster time-to-value on your investment, deeper insights throughout your business, and the ability to make better data-driven decisions.

DURATION: 8 Weeks

PROCESS & ACTIVITIES:

Our experts will collaborate with your team through interactive workshops and a hands-on session to plan, set up, and launch a state-of-the-art data platform, all within 8 weeks:

1. Discover:

Clearly identify your needs, outline anticipated benefits, prioritize key use cases, and assess the scope and timeline for data modernization.

- Duration: 3 Weeks

2. Setup:

Establish key platform capabilities for data storage, movement, and reporting - aligned to the use cases identified in Step 1.

- Duration: 1 Week

3. Launch

Create data pipelines to ingest and transform data, develop reports that align to business KPIs, and perform user training.

- Duration: 4 Weeks

DELIVERABLES

After we've completed the Data Discovery, you'll receive:

- A fully operational BI and analytics report
- A robust data, analytics, and BI platform built on Microsoft Fabric
- Comprehensive data architecture, ingestion, and modeling patterns
- A quick start guide and knowledge transfer for administrators
- Strategic insights on future platform, security, and governance

Centrilogic

Data & Analytics

BENEFITS

Upon completion of the Discovery, you'll have a thorough understanding of:

- Better insights and decision-making capabilities throughout your operations
- Improved operational efficiency through data and AI-powered automation and processes
- Hardened security and compliance with advanced data protection measures
- Scalability and Agility throughout the platform to accommodate growing data volumes
- Strengthened collaboration and productivity with integrated tools and services

Why Centrilogic:

- 100+ certified Data & Analytics practitioners
- 650+ satisfied clients, with an average tenure of 10+ years for some of the top clients.
- Expertise across industry-leading Data & Analytics platforms and ecosystems.
