

# App in a Day by CGI

App in a Day is designed to accelerate your Power App and Power Platform stack experience with a comprehensive training session delivered in a single day by a certified Microsoft Partner. Led by a CGI consultant specialized in Power Apps, you'll gain practical hands-on experience building Power Apps in a full-day instructor-led workshop.

## Purpose of the Workshop

1

Learn how to Digitize business processes, work more efficiently and become more Paperless with Power apps.

You will easily build and deploy custom business apps in both canvas and model-driven style of apps.

2

Learn how to connect all your applications and share data with Microsoft Dataverse.

You will bring data together to create powerful apps using a compliant and scalable data service.

3

Learn how to automate and optimize your business processes with Power Automate.

You will be building automated workflows intuitively.

## Outcomes

1

Create custom business application without writing code.

2

Build sophisticated business processes and complex data relations.

3

Connect your app to a variety of data sources.

4

Share your apps inside your organization securely.
