Pharmacy Network Solutions

**Drive Efficiency,
Revenue, and
Customer
Satisfaction**

Accelerating Your Healthcare Transformation

As the healthcare industry rapidly evolves, you face multiple challenges managing your pharmacy business. Claims management is more complex and time-consuming. Margins are shrinking. Expanded connectivity with all stakeholders is essential. And rising out-of-pocket costs are hampering patient access to medications.

Change Healthcare's Pharmacy Network Solutions can help.

Our industry-leading infrastructure is compatible with existing pharmacy management systems and is configured to deliver unmatched speed, reliability, and security. We offer six interconnected solutions that deliver best-in-class performance across all domains of pharmacy operations and management.

You'll benefit in numerous ways. Greater claims accuracy helps maximize reimbursement and improve cash flow. Simplified billing and workflow processes drive staff efficiency and productivity. Robust reporting enables quicker business performance and trend analysis. And solutions to help patients at the point-of-sale enhance customer satisfaction and loyalty.

Our 20-plus years of experience in healthcare transactions, combined with our pharmacy expertise, help us to help you. Thousands of retail pharmacies rely on us every day. You can, too.

Connectivity, Data Access, Analytics, and Patient-Centered Solutions

Across six key operational areas, Pharmacy Network Solutions deliver improved efficiency, powerful analytics, and streamlined workflows. Consider how these solutions could help strengthen your pharmacy management:

Rx CardFinder™ Services — Determine pharmacy benefit eligibility in real time. This industry-leading service improves staff efficiency while providing enhanced customer service. A single transaction quickly returns active coverage information for more than 220 million covered lives, including Medicare Part D beneficiaries.

Rx Connect™ — Submit claims electronically using our secure, reliable network, with access to all processors. Online tools make claims research and troubleshooting easier, and we offer 24/7 support.

Rx Edit™ — Improve reimbursement with flexible pre- and post-adjudication edits. Rx Edit is an advanced,

real-time edit engine designed to increase your pharmacy's overall profitability by reducing submission errors and optimizing reimbursement. A series of pre/post edits are automatically performed, providing financial, administrative, and legal-compliance reviews on claims prior to submission and post-adjudication.

Rx Payer Compliance — Recover lost revenue with average wholesale pricing (AWP) claim resubmission. This automated solution maximizes reimbursement by helping you quickly identify, reverse, and resubmit claims that have been paid with outdated AWP.

Rx Assist — Generate revenue and customer loyalty with point-of-sale messaging and electronic vouchers. Partner with pharmaceutical manufacturers to bring patient persistency and compliance programs to your point of sale in real time with Voucher-on-Demand, Inform, Redeem, and print-to-pharmacy solutions.

Change Healthcare is a leading provider of claims management and analytics solutions. Thousands of retail pharmacies rely on us every day.

Rx Adjudicate™ Services — Easily implement and manage specialized pharmacy programs, including patient-loyalty offerings, employee plans, and discount generic-drug programs, as well as other pharmacy initiatives that require specialty adjudication and/or processing.

Coping with the many complexities of pharmacy operations requires a comprehensive approach grounded in universal connectivity, immediate data access, powerful analytics, and patient-centered solutions. Pharmacy Network Solutions provide the infrastructure your organization needs to grow, adapt, and prosper as healthcare continues to evolve.
