

COPILOT TRAINING

What's included

Copilot Training Overview

Exclusive to participants of the Pilot and Early Access Program, we bring you a dynamic journey into the world of Microsoft Copilot.

Dive into this immersive experience remotely via Microsoft Teams. It's more than just training—it's your launchpad to mastering Copilot and the full spectrum of Microsoft 365 applications.

Empower yourself, unlock new possibilities, and get ready to soar with unparalleled knowledge and skills!

01 Setting Up & Integration

02 Understanding Best Practices

03 Ensures Safety & Security

04 Feedback & Continuous Learning

We immediately felt the impact of Changing Social's Copilot training and support.

I can honestly say that we would not be where we are without the support from the team at Changing Social, they have open our eyes from out dated ways of working and we are set up perfectly for the future.

- Craig Fellows, Director at Clifton Coffee

Copilot Training

Dive deep into the foundational aspects of Microsoft Copilot, understanding its interface, functionalities, and benefits.

Copilot Scenario Training

Explore specific scenarios where Copilot shines. Understand how to use Copilot in real-world situations, be it in debugging, coding, or integration.

Prompt Engineering

Master the art of asking the 'right' questions to LLM's. Enhance the efficiency and accuracy of your interactions with platforms like Copilot.

Executive Coaching

This offers a high-level understanding of Microsoft Copilot and its strategic implications. Discover how AI transforms organisational processes & productivity.

Copilot Champions

Specialised training module aimed at creating advocates for Copilot within your organisation. Champions not only master the tool but also inspire & assist others.
